FROM THE CAPITAL

An Alabama Colored Man Who Refuses to Become a Postmaster.

Washington, July 28.—(Special to The Herald.)—The assistant secretary of the Interior has affirmed the decision in the case of John H. Murray, on appeal from the commissioner of the land office, involving a tract of land in the Duluth district.

The supreme court justices have not felt easy since the fire's near destruction of the chamber several months ago, and have persistently nagged the architect of the new building to speed completion of the work, whereby all the combustible materials stored in the basement under the chambers would be removed to the new, safer quarters. With a desire to please the justices, and at the same time realizing that the new building would be needed in the great building, the architect is now having constructed a vaulted passage way, or tunnel, leading to the joining the sub-basement under the supreme court chamber, and this vaulted passage way will be made available to the supreme court. I will be so arranged that in case of fire the doors will be opened and the fire will be for the fire to spread. Not one of the justices likes a coal fire, and the fuel will be removed from the chamber, and burned in open fireplaces. Such fires are expensive, but expense cuts no figure.

Speaking of the justices and their wood fire reminds the writer that the last time he presented a paper to the Chief Justice Miller was at his second inaugural ball. The president was asked to give a general benediction when the chief justice turned to him as the justices and their gowns" asked Mr. Lincoln. "All right," answered the president, "and after a moment Mr. Lincoln said:

"Miller, you were brought up on a farm and have seen the breaking up of a log, and the burning of a log, and the burning of timber you have seen the heavy bark fall from a half-decayed log, while out from under the bark the white wood is exposed. You would waddle off in the clumsiest and funniest kind of dignity. Well, Miller, I can see one of you justices with your feet wadded out, I think of one of those funny ants."

"I am a Democrat of the rank and file, a well-known lawyer of Atlanta, Ga., at the Riggs the other day, "but I am a great admirer of any man who will under adverse circumstances stand up for his rights and make a name for himself. I met Johnson at the register of the treasury, today, and I was reminded that he was one of the first to be admitted to the practice law in my state, and I remember, too, that his practice was a success from the time he was admitted. Early in his career he was successful in securing the revoking the ownership of some miles. The case was to be heard in a small county some distance removed from Atlanta, and he happened to be there when he appeared on the scene there was considerable comment over the fact that a lawyer of his standing would appear before the court. Lyons said he was to win the case regardless of what was

about his being a colored man; he had no objection to justice on this side, and he did not believe a colored word have anything to do with it. The opposing lawyer, a young fellow, was a white man, and he was a very long and pointed a few harmless jibes at Lyons. Well, the case was handled admirably by Lyons, and he was not put out of his temper, but after carrying it to a higher court, where the decision of the lower court was affirmed, he withdrew from practice and went back to his law office. He says, "I don't say that his defeat by the colored lawyer killed him, but I do know that he took it very hard."

The postoffice department is having a difficult time getting John Bishop, colored, to accept the postmastership of the office at Lyons, La. The postmaster at Euflavia, and other Episcopal churches, recommended a white man for the place,

"It was decided that the colored man [Bishop] would be the applicant, and the commission was forwarded to the bishop, who was not an applicant, declined to accept. Again the commission was forwarded to the bishop, and he says he does not want it. An Alabama republican now in Washington said: 'I now Bishop. He is a good fellow and a good fellow for his kind. He has been among the riot in 1875, when he and several negroes were scattered all over Louisiana. Bishop recently said: 'I am not a member of the Ku Klux Klan, but I am a bigger ter 'strite de mall in White Oak, dey will hab rit git some of dese folks. John Bishop, I knows dese folks. I hab de letters, an I ain't goin' to be cause of no 'srumdient. Dey hab de well out 'sindin' dere old missions ter me, fer I ain't no gine ter hab it.'"

Nashville, Tenn., is the business man who is leading the fight against the taking up of an old war claim, known as the Brennan Iron Works claim. The claim, which is being vigorously contested by Gen. Don Cameron, is based on the occupation of Nashville, and was paid for \$35,000, that sum being deposited with the United States treasury. Mr. Brennan is making every effort to organize an association of southern war claimants. He said: "I am sure that if \$100,000 of the \$1 million dollars can be raised to us, securing legislation on war claims, we do not mean that this is to be used for the purpose of paying the first-class lawyers who can properly represent to congress the justice of our claims. Such an association, composed of the names of many of our men, would naturally carry significant political strength, and in addition to this we are now in a position to offer the aid of the state of Tennessee."

ate. I shall begin the work of organization as soon as I return to my home in Nashville, and have no doubt but that claimants will be glad to come into

NEWS OF THE LAKES

Transfer of Two Tug Lines At Buffalo to the Trust Arranged.

TAKE SOME STOCK
Tugmen Proposing to Demand Higher Wages at all Lake Ports.

Cleveland, July 28.—(Special to The Herald.)—Capt. Davidson and Collier and T. P. Noonan, the tug trust representatives, are importing the Cleveland and Lorain tugs. The work will be completed today. According to the latest reports from Buffalo the transfer of the tugs of the two lines at that port to the Great Lakes Towing company has been arranged. It is said that part of the agreement of sale is the holding of stock in the towing company by the Buffalo tugmen. It is also reported that the Buffalo men will have a voice in appointing a manager for that port, and that a local man will get the position. The Express says that the tug owners sold their interests under compulsion.

As the purchase of two tugs at Erie and one at Cleveland has been arranged, the work of the committee is now complete and a formal organization of the tugmen will be the next move in order.

Capt. Davidson and Harved D. Goudier, counsel for the tugmen, have been paid to see the Philadelphia Roading railroad officials about some towing property at Duluth.

Cleveland tugmen have been contemplating a strike for an advance in wages, but it is now proposed to make the move a general one at all lake ports.

BARGE OWEN IN SERVICE AGAIN.
Capt. James Davidson has completed repairs upon the barge Owen. B. Owen, the steamer Bermuda will tow her in the lumber trade between Duluth and Lake Erie ports. The Owen is under the command of Capt. H. B. Moore, of Chicago.

WAGES TO BE INCREASED.
On and after Aug. 1st Chicago seamen expect a wage increase of 25 cents per diem. For sail vessels the rate will be 32 per day, and for tow barges which do not carry cargo it will be 25 per day.

THE MINCH NOT ABANDONED.
Capt. William Gerlach, manager of the Mohr Transportation company, says that the work of releasing the large Sophia Minch from the beach near Ashland has not been abandoned.

CHANGING TO A LUMBER CARRIER.
J. C. O'Brien has had the steamer Oregon converted into a lumber carrier for the lumber trade at an expense of \$10,000. The new vessel will include in the main consist of new stem, iron, main deck and deck beams, new masts, sails and cabins.

THE SAGAMORE RELEASED.
The whalerbarge Sagamore, which sprung a bad leak at the Esconoma on Friday, was repaired yesterday and left for Duluth today.

FREIGHTS AND CHARTERS.
Cleveland, July 28.—Some tonnage to Duluth and Superior has been placed on wheat. Duluth freight at 25 cents, which is equal to \$1.20 on ore. One dollar has been paid on ore from head of lake, but Esconoma shippers are eager to have their cargo cleared away but Michigan coal carriers are scarce, and Milwaukee rate is firm at 60 cents. Chicago ore—Huron, Duluth, Ohio, St. Clair, LeRoy, Edinboro, Shawnee, Cleveland, Ashland, prices.

BOTTOM BURNED IN SAND.
Capt. Jack, whose troubles in removing the wreck of the schooner John A. Duluth from St. Joseph harbor came near costing him his life, does not mind the work, but the bottom of the old bark, which sticks in the sand and refuses to budge.

VESSEL MOVEMENTS.
Ashland—Arrived: Gratiot, Vulcan, Sars, Atkins, Northern, noted this afternoon. This evening Atkins' orchestra will play.

They All Know Sam.
The excursionists to the number of 300, were making themselves at home at the Esconoma. Northern noted this afternoon. This evening Atkins' orchestra will play.

CATIN AT THE SEA SHORE

Interesting Gossip of the People In the Passing Throng--Whitelaw Reid, Nellie Grant, Chandler and Gallinger.

TWO WIDOWS OF RICH MEN

Who one need be a spiritualist when at these seaside resorts he can see the departed go by in his quagmire, writes Gath from West End, Long Branch.

Who is that tall, fine-looking man, well-dressed, gray, and with an eye beaming a bounding nature? I see him ride his horse alone where trolleys and conveyances might give a timid nature fear.

It is Whitelaw Reid, several times our agent and minister abroad and there is no doubt that he is the most brilliant of the present, when his old friend, Hiale, opposed the idea of a new man to help him out that it was worth it.

It has been said that Reid had the Harrison in his pocket, but Harrison had saved many a hostile and illiberal word.

Once I attended the New York State Press association and had to read something about Mr. Reid and there I observed that he had the Harrison in his pocket, but Harrison had saved many a hostile and illiberal word.

More than thirty years ago I saw Whitelaw Reid making his own way to his apartment on F street, Washington, and I had never seen a man make two before.

He had never seen a man make two before, although a man in China who caters to the fact of his people's superstition from half a dozen different countries and I have no doubt he is a happier man in and out of his family than any other.

I see so past me a woman, said to be the grandchild of General Grant, and I have no doubt he is a happier man in and out of his family than any other.

Grant was not a handsome man, but a brave one. His wife was not a hand-some woman, but a brave one. Their children had that dignity which comes from a man's own ship.

The young man was the son of a famous singer, the sister of Fanny Kemble, and the daughter of a great great-grandfather, Nellie did not look as if she had the fact, but she saw a highly pleasing and manly young man.

He was not very happy, but it produced fine progeny. Young Stanton returned along the line of his people to Iowa, and I have no doubt he is a happier man in and out of his family than any other.

I think I saw the widow of George W. Childs, thirty-seven years ago in New Jersey. Mr. Childs was a very rich man, and his wife was a very rich woman.

He was married and had no children, and now Mrs. Childs lives in New Jersey. She was a very rich woman, and her husband was a very rich man.

As I look at Gen. Grant's two cottages at Long Branch, one of which is now a museum, and the other is now a museum, I have no doubt he is a happier man in and out of his family than any other.

Lieutenant and Quartermaster William H. Hart in the same rank. There was no regimental commissary. Captains' commissions were issued to these two, dated from July 8, and a captain's commission to Arthur H. Demuth, of Company D, who has been acting commissary, dating from March 4. He is recommended by Col. Friedrich and Maj. Bean.

AMATEUR OARSMEN.

The Senior Four-Oared Race Won By Pennsylvanians.

Boston, July 28.--With few exceptions the first day's races in the big regatta of the National Association of Amateur Oarsmen, held on Charles River, proved most interesting, the senior four-oared race, which was won by Pennsylvanians, being the chief feature in point of close finish.

Summary of the races: Senior four-oared--Pennsylvanians--Won by Pennsylvanians Barge club, Philadelphia (Hugh Monaghan, bow; John Eklow, stroke; Brockville Rowing club, Brockville, Ont., second, time, 10:20.4.

Intermediate single sculls--First heat: Won by John Eklow, stroke, Brockville Rowing club, Brockville, Ont., second, time, 10:20.4. Second heat: Won by John Eklow, stroke, Brockville Rowing club, Brockville, Ont., second, time, 10:20.4.

Association single sculls--First heat: Won by John Eklow, stroke, Brockville Rowing club, Brockville, Ont., second, time, 10:20.4. Second heat: Won by John Eklow, stroke, Brockville Rowing club, Brockville, Ont., second, time, 10:20.4.

COLEMAN'S GIANT FROG

Untruthful Tales That Its Weight Reached Fifty Pounds, But It Has Never Exceeded Forty-Two Pounds.

IT IS FED FROM A SHOVEL

Of the many natural features of New Brunswick that attract the attention of summer tourists is directed there is none more absorbing than the story of the life of a frog, says a Fredrickton, N. B., letter to the New York Sun. This is not because of its size, but because of its life.

It is a small in extent and the shaggy second-growth forest that surrounds its rocky shores is devoid of scenic charm. The lake is well-wooded with small trees and bushes, and the water is clear and deep. It is a small in extent and the shaggy second-growth forest that surrounds its rocky shores is devoid of scenic charm.

ear his purpose of visiting the old home in Sweden and looking after the interests awaiting him there. Asked how it hung

The Chicago Krugers, who also use the name of Paul, have been exploited in connection with the movements of the president of the Transvaal and the president of the Orange Free State in a measure of statements sent broadcast in a measure of information indicating that they are in secret communication with the Orange Free Republic and now more of what they are doing.

led with the doings and sayings of the Chicago Krugers, and these are loaned on request to residents of Milwaukee. Milwaukee does nixen. Scrap books are

"I have the belief that Paul is the re-inarnation of our royal ancestor, Gustavus Adolphus, the 'lion of the north,' who conducted that struggle of religions, the thirty years war. No other man could

Somewhere in the Kruger family is a

Empire's great saint Louis Kruger by Emperor Napoleon himself. He was rewarded on his own breast to decorate the woman who had been the first to join the French army at the battle of Waterloo. He was one of the last rewards bestowed on the French army, and it was given by the English. History relates the circumstances of war, but the Kruger family in Chicago has no recollection of the French Krugers were closely related, and the family name was in America and the saint Louis had in reverence in the family.

And the stories which the family of Gust C. Kruger have saved relating to the saint Louis is one which first appeared in an English newspaper. It was a dramatic of the family pride which endeavored to keep any sign of a family name, and the family name was a personal support. There was a saint Englishman who called on Paul Kruger, and he was a saint Englishman. He came to call on him. The rugged saint Englishman did not stop smoking.

message was also received with a grunt and a puff of smoke. After some awkward waiting the duke said:

hen Kruger took his pipe from his
and asked:
"Eh! What's that? A victory?"
"That's the sort of king, you know,"
suggested the duke.
Again Kruger took his pipe from his
mouth and the Englishman that I was

of the old emperor, he was treated with the greatest honor and consideration, his majesty placed him on the right hand at table, and felt inclined to repeat the same story which Frederick the Great once said to the Austrian emperor, "I have known him for more than 40 years' war. The more I know him the more I love him." He was seated in his place at the table opposite the emperor, and Frederick said to him, "I never do: I come and sit beside me; I am only too glad to be with you." He said: "Well what it is to have to do on the other side."

STRIKING GROWTH

Exports of Iron and Steel During the Past Fiscal Year.

A GREAT INCREASE

Interesting Information In Consular Reports From China and Japan.

From The Herald Washington Bureau.

Washington, July 31.—(Special to The Herald.)—Of remarkable growth in the exports of iron and steel during the fiscal year just ended, that of the manufacture of iron and steel is the most striking. The total increase in the exports of iron and steel during the year as shown by the figures of the treasury bureau of statistics, is in round numbers \$18,000,000, and of this increase, \$9,000,000 is in manufactures of iron and steel. The total exports of iron and steel and manufactures thereof in the fiscal year 1898 were \$92,715,561, against \$74,466,885 in 1897, \$57,497,872 in 1896, \$44,472 in 1895, \$32,000,880 in 1894, and \$22,250,254 in 1893. It will thus be seen that the exports of iron and steel in 1898 were more than double those of 1895, and more than three times as much as those of 1893.

On the other hand, the imports of manufactures of iron and steel continue to fall, having been during the year but \$12,088,233, against \$25,353,102 in 1897 and \$25,447,712 in 1896. Thus, while the exports of iron and steel have been steadily growing, the imports have fallen, so that they are now less than one-half what they were in 1896 and about one-third what they were in 1897.

All the classes of manufactures of iron and steel have shared in the growth of the industry, but this is especially marked in the higher grades of manufactures, such as steel rails, railway car wheels, machinery, hardware, machinery of all sorts, and especially those used in manufacturing. The number of railway engines exported during the year was 21, against 35 in 1897, 33 in 1896, 25 in 1895, and 14 in 1894, while the value of the exports of locomotives in 1898 was \$1,728,748, against \$1,025,236 in 1897.

Of the six railway locomotives exported during the year, 30 went to Russia, 68 to Japan, 61 to China, 59 to Mexico, 59 to Canada, 26 to British East India, 25 to England, 24 to Sweden and Norway, 20 to Brazil, 14 to the West Indies and 11 to Africa. One interesting feature of this large exportation of locomotives in 1898 is that 211 of the 217 exported went to Asiatic countries. The following table shows the exports of manufactures of iron and steel during the year 1898, compared with those of the preceding fiscal years:

...wheel castings	1,653,099	1,811,222	1,422,222	1,111,111	888,888	777,777

MAY BUILD A HOTEL

Eastern Man Said to Be Planning One For Park Point.

WILL BE A FINE ONE

If He Builds It Will Be Nothing But the Very Best.

There is said to be a better chance than ever before for the building of a summer hotel on Park Point. An Eastern man who has the money to carry the scheme out in handsome style is considering the purchase of about ten blocks of land on the Point for the purpose of erecting a fine summer hotel, and while he has not yet closed the deal, there is said to be an excellent prospect for his doing so. The man is a large block of ground, for if he builds he will fix up a park and handsome surroundings, such as are absolutely necessary for every such resort.

A great number of the visitors who have come to Duluth this summer and have visited the Point have expressed the greatest of surprise that there is no summer hotel there, and have predicted that it would be a winning venture. With each year the number of visitors who come to the city increases, and if there were a first class summer hotel the number would be many times what it now is. There is no place in the country which is quite as fine for a summer resort as the Point, and the fact that there is no hotel there is a great pity. The building of the hotel is a business which it has had for some time, but it has not been done. The man who is planning to build it is a man who is a native of the city, and he is a man who is a native of the city, and he is a man who is a native of the city.

FOUND OUT IT WAS TRUE. Drayman Knows Discoverer That Horses Shy at Elephants.

A horse attached to a dray driven by Daniel Knowles ran away on Superior street this morning during the passage of the circus parade, starting in front of the Spaulding hotel, plunging through the crowd on Superior street to Fourth avenue west, and bringing up at the corner of Fourth avenue west and Michigan street with Knowles under the front wheels tangled up in the lines. It was at first thought that Knowles was killed. On pulling him out, however, it was found that he was unhurt, and that the horse was running. The dray before the horse turned out of Superior street and had been dragged under the dray for over a block. Several children had a narrow escape from being run over. The horse was frightened at the elephants in the parade. Warning had been given by the men in the parade to people with horses, but Knowles paid no attention to them and drove his steed along close to the animals to see whether what the circus men said about the elephants scaring horses was true.

WILL PLAY AT DULUTH. Superior Ball Team to Come Here For Two Games.

Manager Hansell of the Duluth ball team announced this morning that the local and Superior teams will play two games at the fair grounds next Saturday and Sunday. These games promise to be as exciting as the first game played by the Superior team, which was won by the management for losing yesterday's game, and it is said that Manager McGrath offered to impose some fines and sign a few releases if Superior does not win the game. The game is to be played at the fair grounds for next Saturday's game, and the game is to be played at the fair grounds for next Sunday's game. The game is to be played at the fair grounds for next Saturday's game, and the game is to be played at the fair grounds for next Sunday's game.

BOY DROWNED. Eighteen-Year-Old Deck Hand on Mohawk Loses His Life.

Boy Hardy, a deck hand on the steamship Mohawk, fell into the bay from the deck of the ship and was drowned yesterday morning. The fatal fall occurred at 10 o'clock this morning, when Hardy was on duty on the deck of the ship. He was a young man of eighteen years of age, and he was a native of the city. He was a young man of eighteen years of age, and he was a native of the city. He was a young man of eighteen years of age, and he was a native of the city.

The Police Court.

In police court this morning William O'Donnell, a young man living on Garfield avenue, was arrested by officer Nelson, at the West End last evening, on the complaint of Neils Peterson, who alleged that O'Donnell had stolen \$1.50 from the back room of a restaurant. As there was no evidence but Peterson's statement, a charge of disorderly conduct was entered against O'Donnell, and he was to be tried this afternoon.

Determining the Ownership.

Edward McCue and Mrs. Edward McCue were litigating the ownership of a team of horses, a wagon and a set of double harness between them in municipal court this morning. Mrs. McCue had the property taken from her by her husband, and she was to be tried this afternoon.

Nothing But His Statement.

Frank O'Donnell, a young man living on Garfield avenue, was arrested by officer Nelson, at the West End last evening, on the complaint of Neils Peterson, who alleged that O'Donnell had stolen \$1.50 from the back room of a restaurant. As there was no evidence but Peterson's statement, a charge of disorderly conduct was entered against O'Donnell, and he was to be tried this afternoon.

To Apply on His Fine.

In the case of the gambling tensilis captured in the gambling rooms over at 29 West Superior street last Monday afternoon, which were ordered destroyed by Judge Edson Saturday afternoon, the execution of the order for their destruction for fifteen days, on motion Attorney Outing, who appeared for the claimant, the Valmore Beaulieu, to give him time to consider the question of appealing from the order.

London Road Property Sold.

Stryker, Manley & Buck today closed the sale of what is known as the Frazier property on Sixth street, east of London road to C. F. Robel, superintendent of the Bethel mission. The property was owned by the Frazier family, and it was sold for \$500 cash. Stryker, Manley & Buck closed several other sales today, which are not yet ready for publication.

LIKELY TO MEET

Adjournment of Council Because of the Circus Is Not Probable.

THE LIGHT MATTER

Not Apt to Change Its Attitude But May Grant Time.

It was thought this morning that the council would meet this evening instead of adjourning over until tomorrow night on account of the circus, as was originally intended.

It is the impression that the council will stand by its proposition to the Commercial Light and Power company for 250 lights for one year at \$85 per light. It is probable that the council will give the company the additional ten days asked for by it to consider the council's proposition on account of the absence from the city of a majority of the board of directors of the company, although the council may have some opposition to this. The council is to meet at 8 o'clock on the ground that the time for the adjournment of the council is drawing near. The council is to meet at 8 o'clock on the ground that the time for the adjournment of the council is drawing near.

PERSONAL.

Fred H. Fitch, of Sioux City, Iowa, general agent of the Sioux City Tractor Co., is in the city. He is a man who is a native of the city, and he is a man who is a native of the city. He is a man who is a native of the city, and he is a man who is a native of the city. He is a man who is a native of the city, and he is a man who is a native of the city.

HEBREW OPERETTA PRESENTED.

Opera in "Ancey Lemels," a Hebrew operetta, was presented at Turner hall last night by a company of Hebrews of which there was a fair sized audience in the presentation. The operetta was a Hebrew operetta, and it was presented at Turner hall last night by a company of Hebrews of which there was a fair sized audience in the presentation.

WANTED TO STOP HIM.

Paris, July 31.—At today's session of the Anglo-Venezuelan boundary arbitration commission, M. Mallet-Provest continued his presentation of the Venezuelan case. Baron Russell of Killowen, lord chief justice of England, suggested the advisability of M. Mallet-Provest curtailing his argument. Mallet-Provest, however, insisted on continuing his argument, and the court will continue its sitting tomorrow.

A TENNESSEE DUPEL.

Knoxville, Tenn., July 31.—A fatal duck shot took place across the line in Tennessee, Ky., yesterday. Smallwood killed his uncle, Clelland Smallwood, and the younger man was himself fatally wounded by his uncle. A recent quarrel revived the enmity of two years' standing. The men met upon a narrow railroad, and both fired at the same time. Young Clelland dropped his rifle, and fell heavily to the ground. His uncle tumbled over dead, shot near the heart.

DISEASE AND ACCIDENT.

Gen. Otis Sends In a Long List of Deaths.

Washington, July 31.—The war department today received the following death report from Gen. Otis at Manila: Gen. Otis, aged 61, died of typhoid fever, July 29, at Manila. Gen. Otis was a native of the city, and he was a man who is a native of the city. He was a man who is a native of the city, and he was a man who is a native of the city.

Watchmaker and Engraver.

Continuation of this Most Extraordinary

...DRY GOODS SELLING

The actual alterations in the store have commenced, and from now on until the completion the merry clink of hammers will be heard from every side. Everything will be done as noiselessly and carefully as possible so as not to interrupt the store business. Walls are to be torn down in the Cloak and Suit Department, to give us about double present space; ceilings and floors will be torn through for the new passenger elevator.

Today's large attendance added interest to the store and the muffled noise seemed to make shopping more delightful. Of course, the MERCHANDISE and PRICES are the chief attractions. In fact, the values are more tempting than at any time during the sale. Tomorrow will see these values and we hope for a larger attendance than ever.

You are no doubt aware of the fact that goods in almost every line are rapidly advancing in price—and advances are strongly in evidence in Dry Goods of almost every description—notwithstanding all this these low prices will rule and we predict even heavier buying than during the past three weeks.

Dress Fabrics.

Many formerly advertised lines in this department have been entirely closed out and our next week's offerings will include even greater values than heretofore. The items include Dress Materials that are specially for the coming fall, as well as for present use. Coming to the store is interesting enough even though you've no idea of buying—and the chances are that seeing for yourself will be on good an encouragement to warrant your waiting.

Belt Buckles, Neck Clasp, Shirt Waist Sets, Hat Pins.

And all other Jewelry Novelties, tomorrow at Exactly Half Price. This season's newest ideas.

Wash Fabrics.

Do you remember those 50c Ginghams, such as the Anderson's goods. They are all on sale now. At the yard.

And all of those Scotch Corded Ginghams that were 35c we are now selling at 25c. At the yard.

Great Linen and Domestic Selling.

The many buyers are more proof of the good values than our telling hundreds of careful housewives have been here and bought in plenty. Hotel, restaurant and boarding house keepers, too, have responded liberally. Linens, domestics and white goods are on the jump, any dry goods store will tell you that, yet these prices were based upon the former price list, which, compared with this fall's, means a saving to you of from 20 to 50 per cent. Under these conditions do you think you can afford to let a buying opportunity like this slip by? Every item here will be found exactly as advertised, but do not delay the coming too long.

Extra Silk Values.

ADDED SNAPS TO KEEP UP THE INTEREST.

Black Grenadine. 22 inches wide, all silk, 100 yds. to a lot, \$1.00. At the yard.

India Silks.

10 pieces plain black 27 inches wide, all silk, to date for \$1.25 a yard. At the yard.

Silk Waist Patterns.

Some choice styles are still here: 60c and 80c. At the yard.

Colored Dress Goods.

Beautiful assortment of plaids and checks, handsome and durable. Colors, were \$1.25 to \$1.50, at the yard.

Remnants of Fine Dress Goods.

Keep picking through until you've found what you want. The price won't stay you a bit—depend upon that.

FIRE AT TWO HARBORS.

Van Orman's Feed Store Burned to the Ground.

Two Harbors, Minn., July 31.—(Special to The Herald.)—Yesterday morning, at 8 o'clock, Van Orman's feed store was burned to the ground. The building belonged to W. D. Lawrence. A high wind was blowing, but shifted before it took Mr. Lawrence's residence, thereby endangering Norden hall. The firemen seeing no chance to save the feed store, turned their efforts toward saving surrounding buildings. This is the third time within a year that this building has been on fire. The last time, after the flames had been extinguished, it was found that oil had been liberally poured over the walls and on a bundle of old sacks. The stock was fully \$500 on the building.

Sum of \$22,000 Subscribed.

About \$22,000 has been subscribed for the new St. Luke's hospital, and there is several more thousand dollars in sight, according to Rev. Dr. Ryan. That the necessary sum will be secured before beginning the work of building now seems assured. The board of managers is to meet at 5 o'clock tomorrow afternoon at the hospital to arrange for carrying on the work of raising funds and to discuss plans for the future.

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas consumes as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

CUBAN GUNS SEIZED.

American Claimed He Bought Them For War Relics.

Havana, Aug. 1.—A court-martial has exonerated Capt. Fontou for his connection with the recent clash at Cienfuegos between American soldiers and the police. The police have seized a quantity of old rifles and swords, the property of an American named Fontou, who claims he purchased the weapons from Cubans to resell in America as war relics. All the civil authorities attended the funeral of the American who was fatally injured Sunday at the exhibition given by the fire department. The body of the man was buried in the cemetery of the family of the deceased man. As a result of a recent disturbance in connection with a fire at Matanzas, the chief of the firemen has asked the mayor to request American authorities to contribute to the fire department.

PROBABLY WENT DOWN.

Cunard Liner Cephalonia Collided With a Sailing Bark.

Queensdown, Aug. 1.—The Cunard liner Cephalonia, from Boston July 22 for Liverpool, which arrived here today, was densely fogged during the night. Between 2 and 3 o'clock in the morning, while nearing the Irish coast, she collided with a sailing vessel, supposed to be a bark. The vessels separated quickly and a boat was launched from the steamer, but all search for the sailing craft was unavailing. The Cephalonia was not damaged.

A WARM BATTLE

Sunday's Fight at Calamba Distinguished By Bravery on Both Sides.

FRIENDLIES KILLED

The American Garrison at Morong Is Going to Calamba.

Manilla, Aug. 1, 9:50 a. m.—Sunday's fight at Calamba was a warm one. The insurgents were unwilling to abandon the place, which is the key to the lake road. Gen. Hall, hearing that Gen. Malvar was preparing to make an attack, sent Maj. Welschberger with three companies of the Twenty-first infantry, three troops of cavalry and one of Hamilton's guns to attack the insurgents. This detachment found a force of 1000 rebels behind hastily-made intrenchments.

The rebels held their fire until the contingent of the Twenty-first regiment was within 300 yards, when they fired a volley. The Americans dropped in the high grass out of sight and returned the fire. Lieut. Love, who was walking erect along the front of the line, was shot in the arm. An insurgent officer, equally brave, stood at the top of the trenches, directing the fire of the insurgents until he was killed, when the Filipinos fled. During the fighting on the north side of the town a small body of insurgents attempted to enter on the south side, but a troop of cavalry repulsed them. The total American loss at Calamba was seven killed and twenty wounded. Sixteen dead insurgents have been found.

The American garrison at Morong is being shelled.

A body of insurgents has visited Taytay, where they killed several natives who were friendly to the Americans.

ANOTHER BRITISH GROWL.

English Artist Enters a Protest Against Philippine Campaign.

London, Aug. 1.—The artist of the Daily Graphic of this city, now in the Philippine Islands, has been indulging in a vigorous growl at the treatment he says he has been subjected to by the authorities who are so deficient in common sense as to forbid an artist the right of painting which he might prefer for himself by engaging servants to carry the food for the soldiers. The artist declines to supply even now on his side.

He adds: "If this campaign were conducted by the United States, it would be a disgrace to the name of the United States."

He has accompanied five British expeditions where these conditions exist. He has seen in what the transport service has been established. Even the Chinese established depots in 1894, but here you cannot get a cart from Manila to San Tomas by road without having to swim horses. But for a bit of single railway line the troops would be starved on this island. And this is it. It is they are but fed from hand to mouth.

MINNESOTANS NEXT.

Will Depart From Manila Within a Few Days.

Washington, Aug. 1.—According to advices received by the war department from Gen. Otis, a good many of the Northwestern volunteers have been enlisted in the new regiments being organized in the Philippines. Following is Gen. Otis' cablegram: "Manila, July 31.—Transport General Washington. Transport Grant sailed yesterday, 18 officers, 8 citizens, 1333 soldiers and discharged men. Wyoming, North Dakota and Idaho organizations; left behind about 300 discharged men; good many have enlisted. Only six soldiers left. Corporal Frank Gore, H. Wyoming. Minnesota regiment and discharged men next; shipment in very few days."

ARRIVES AT MANILLA.

Washington, Aug. 1.—Under date of today Gen. Otis cablegram following from Manila to the war department: "Transport Pennsylvania arrived this morning. No casualties. The transport Pennsylvania sailed from San Francisco, July 1, Col. A. S. Burt, Twenty-fifth Infantry, commanding with headquarters, B. F. I. K. L. and M. Twenty-fifth Infantry and recruits, twenty-two officers and 917 enlisted men."

THREE ISSUES.

Wisconsin Democrats Believe In Principles Enunciated In Chicago Platform.

Milwaukee, Aug. 1.—The address issued to Wisconsin Democrats by the committee created in Chicago on July 20, consisting of John Tobey, of Milwaukee; E. Ryan, of Wausau; and W. H. Rogers, of Madison, and made public today, recites throughout the state of Wisconsin without delay, and says that there are three great questions confronting the American people for solution which must be fought out in the next national campaign; that they are not the only issues, but great questions are trust, money and imperialism, any one of which should serve as an issue for a national campaign. The principles enunciated in the Chicago platform of 1892, the committee should, and we believe will, receive in 1900 a complete endorsement. The committee is then treated at considerable length and declares in favor of bimetalism at the ratio of 16 to 1 as it stood when it was introduced in 1873. It deals also extensively with the question of trusts, and says the responsibility of the evils flowing from them should be

placed at the door of the Republican party. It asks, shall the Democrats of Wisconsin stand by and permit such heartlessness and greed of corporate capital to stain the banner of industrial slavery upon our shores, or shall they like patriotic citizens arouse themselves and by all lawful means crush out this great and growing evil?

It charges the Republican party with turning its back upon the principles enunciated in the declaration of independence, and looking to the old world—the government of King George III—for its inspiration and guidance, and says the service and greed of Mark Twainism has more prestige with it than the Americanism and patriotism of George Washington.

William J. Bryan is declared to be the first public man to come out on the question of imperialism.

PENSIONS AND PATENTS.

One Ely and Three Duluth Inventions Are Patented.

Washington, Aug. 1.—(Special to The Herald.)—A pension was granted today to Charles E. Corryell, of Wrenshall, at \$8 per month.

Patents were issued today as follows: Lydia K. Sturm, Duluth, time calculator; Albert Swenson, Duluth, passenger recorder; Charles Lohding, Duluth, car lock; John O'Connor, Ely, fastening handles to crosscut saws.

J. S. VAN ANTWERP.

CROPS HURT.

Terrific Hail Storm Does Damage In Minnesota and South Dakota.

St. Paul, Aug. 1.—A special to the Dispatch from De Smet, S. D., says: A terrific hail storm passed over this section last night, totally destroying the crops along the front of several thousand acres more. But the grain in the path of the storm had been cut by the hail. The full extent of the damage is not yet ascertained.

A special from Dawson City, Minn., says: A severe storm passed over the town a small body of insurgents attempted to enter on the south side, but a troop of cavalry repulsed them. The total American loss at Calamba was seven killed and twenty wounded. Sixteen dead insurgents have been found.

IMMUNE NURSES WANTED.

Surgeon Vickers Says the Epidemic Is Not Extending.

Washington, Aug. 1.—Surgeon General Sternberg today received the following telegram from Surgeon Vickers, charge at the National Soldiers' home at Val Hout, Pa.: "The scene of the yellow fever epidemic."

"Our epidemic is not extending. Last day two cases of one death. Origin not discovered. Do you know if we can get immediate surgeons and nurses?"

Surgeon General Sternberg has responded to Surgeon Vickers' question by saying he has been furnished him immediately with a list of the surgeons and nurses who may be employed.

NOW A BRITISH SUBJECT.

William Waldorf Astor Renounces Allegiance to United States.

London, Aug. 1.—The Gazette announces today that William Waldorf Astor, was naturalized a British subject July 11 of the present year.

SUED FOR DAMAGES.

Howard Gray of Filipino Junta Charged With Libel.

New York, Aug. 1.—A dispatch to the World from Hong Kong says: Howard W. Gray, an Englishman, who belongs to the Filipino Junta here, has been sued for \$50,000 (Mexican) damages for libel by a Filipino named Aracho. The libel was contained in an article Mr. Gray wrote for the Review of Reviews and was printed in the issue of that magazine for June 15, which has just reached here. The article referred to Aracho as a swindler, vagabond, renegade and knave."

FOUR WERE ITALIANS.

Washington, Aug. 1.—The international phase of the Italian lynchings in Louisiana has assumed a rather more serious aspect, as a result of several Italian officials on the scene. It is shown that four of the five men lynched were Italian, and that the fifth was a Canadian. While the reports are not final, the Italian authorities have no doubt they will be borne out by inquiries now in progress.

CONSTANCE IN LEAD.

Dorval, Quebec, Aug. 1.—The Canadian yacht Constance, in the hands of the American yacht, started today on their race for the Seawanhauk cup, which is now in possession of the Canadians. Today's course was two miles to windward and return, three times around. Constance crossed the line first, Constance rounded the first buoy of the first round at 1:50:25, Glencairn at 1:51:15. Glencairn gained rapidly, but Constance turned the second buoy, completing the first round in the lead at 2:07:15. Glencairn at 2:07:30. Constance turned the first buoy of the second round at 2:11:35. Glencairn turned the buoy at 2:23:55.

INTERNAL REVENUE.

Washington, Aug. 1.—The annual preliminary report of the collector of internal revenue for the fiscal year ended June 30, 1898, shows that the receipts from all sources of internal revenue for the year aggregated \$274,481,582.

THE OLYMPIA SAILS.

Trieste, Aug. 1.—The United States cruiser Olympia started for Naples at 4 o'clock this afternoon.

A LINER AGROUND.

New York, Aug. 1.—The Hamburg-American liner, steamer Brattilla, from Hank in the lower bay, near Swinburne Island, about 12 o'clock this morning. At the tide had been running ebb only an hour, it is probable that she will remain aground until high water this afternoon.

Brazilia has no cabin passengers and only fifty-five steerage passengers. Two tugs have gone to her assistance.

THE END NOT YET

Sixteenth Day of the Cleveland Strike Finds Both Sides Determined.

TWO CARS WRECKED

Freight Car Is Allowed to Crash Into a Passenger Car.

Cleveland, Ohio, Aug. 1.—This is the sixteenth day of the present street car strike in this city, and apparently it is no nearer a settlement now than when it began.

Late last night some unknown persons pushed an electric freight car, loaded with ties, from a switch on Mayfield Heights, just east of the city, onto the track and down the long, steep hill towards Euclid avenue. Half way down the incline it collided with an up-bound car with terrific force. Both cars were badly wrecked. Two passengers were on the up-bound car. Strange to say, neither they nor the crew were injured beyond a severe shaking up.

The Big Consolidated officials today state that every line in their system is in full operation, and on the more important lines the regular schedule is being maintained.

The cars running down town on the Euclid and Cedar avenue lines were fairly well filled this morning. On the other twelve lines in the Big Consolidated system, however, they were comparatively empty at an hour when they are usually crowded.

The boycott movement has spread so rapidly that it has now reached the big downtown wholesale and department stores. In many cases the proprietors of these establishments are requesting their employees not to ride on the Big Consolidated cars. In some instances, however, the merchants have hastily refused to take part in the boycott and declare they will have nothing to do with it, no matter what the result may be.

A special from Sandusky, Ohio, says: "Late last night sympathizers with the Cleveland street railway strikers began a campaign of mischief on the cars of the Sandusky and Interurban lines. Large stones were placed on the track, spikes were driven between the rails and pieces of plank fixed across the track so as to throw the cars off. A detachment of police was sent to guard the line. The Sandusky and Interurban line is controlled by President Henry Everett of the Big Consolidated company at Cleveland. No material damage has been done so far."

THE BOSTON MESSENGERS.

One Boy Remaining at Work Is Terribly Punished.

Boston, Aug. 1.—The striking messengers of the Boston District Messenger company claim the company has lost but six boys at work today. Two of these boys were assaulted during the forenoon, one of them being so roughly treated that he was taken in an ambulance to a hospital. One of the assailants was arrested. The strikers presented a bill of grievances to the company today, demanding 25 cents per message, that ten hours shall constitute a day's work, and that they be permitted to buy their uniforms instead of renting them from the company.

The strikers returned to work at noon, pending a result of a conference between the state board of arbitration and the directors of the district company.

SHIP BUILDERS STRIKE.

Men In Two Eastern Yards Want More Pay.

New York, Aug. 1.—The iron workers employed in E. P. Mosses' shipyard, Brooklyn, number 300 men. They struck today. The hospital ship Missouri and the transports Wright and Logan are at this yard undergoing repairs.

At Burley's shipyard, Staten Island, 600 men struck, demanding shorter hours and more pay.

A strike had been expected at Nixon's yard, Elizabeth, N. J., but these men voted to continue work.

HELP TO GRAND JURY.

New York, Aug. 1.—Frank J. Curran, the striking Second avenue motorman, in whose room dynamite was found, was held for the grand jury in police court yesterday. He was charged with misdemeanor and bail was fixed at \$500. The evidence against him is not strong.

AN OIL EXCHANGE.

San Francisco, Aug. 1.—The preliminary steps have been taken toward the founding of an oil exchange in this city. It is proposed to handle the entire oil business of the state through a system of certificates. Stock will be issued and a call board established. A temporary organization, which will be merged into a permanent one, has been formed, with Wendell Easton president, Henry J. Crocker treasurer and E. E. Kohn secretary.

HAD A CONFERENCE.

London, Aug. 1.—Ambassador Choate had a long conference this morning at the United States embassy with the Hon. Francis H. Villiers, an assistant under secretary of the foreign office. It is understood the ambassador explained some points raised by late dispatches from Washington.

HARD TO BORE HOLES.

Groenrock, Aug. 1.—The America's cup challenger Shamrock bent her jury sails today preparatory to starting Thursday for the United States. Lloyd's agents were very exacting in their requirements, strengthening the yacht, and the workmen had great difficulty in boring holes in the aluminum. Her compass will be adjusted tomorrow.

EMBEZZLEMENT CHARGED.

Albany, Aug. 1.—George Colquhoun, a lawyer, has been arrested here on the charge of embezzling funds belonging to his clients. His liabilities are said to be over \$100,000. Colquhoun was formerly city treasurer.

We Are After Our Millinery Department.

Every Ladies' Trimmed Hat must be disposed of in the next two weeks. It is not a question of selling them with us now—the prices we have put on them is like giving them away.

DEFECTIVE PAGE

DECLINE IN WHEAT

The Market Was Very Dull and Weak During the Session.

THE CABLES LOWER

Decline at Liverpool Not as Much as Expected—Light Receipts.

Duluth Board of Trade, Aug. 1.—The wheat market was dull and weak today, there being little trading as the result of the depression caused by the sharp declines in all the markets yesterday. The Northwest receipts were small and while the cables were lower the decline at Liverpool was only a little less than expected in view of yesterday's drop in the market. They cost but a dollar and the effect of steady trading the whole session and turned weaker and declined near the close. September closed lower than yesterday here and 54c lower at Chicago. The market was dull and weak today, there being little trading as the result of the depression caused by the sharp declines in all the markets yesterday. The Northwest receipts were small and while the cables were lower the decline at Liverpool was only a little less than expected in view of yesterday's drop in the market. THE WEATHER.

United States Agricultural Department.
Weather Bureau, Duluth, Minn.,
Aug. 1.—The barometer is low over Minnesota, Wisconsin and Kansas, and is high over the Northwest and the Pacific coast. The weather is generally fair, with light to moderate winds. The temperature is in the upper thirties, with a slight increase during the day. The humidity is moderate. The wind is from the west, with a velocity of 10 to 15 miles per hour. The sky is clear, with a few light clouds. The moon is visible in the evening. The tide is out. The water is calm. The fish are plentiful. The crops are well. The stock is healthy. The weather is good for the season.

NOTICE TO ATTORNEYS.

On and after June 22 The Evening Herald will run all probate notices three weeks, as required by law, for \$1. The regular price for such notices is \$3. The heretofore has been \$3 for work of publication, and this will be a considerable saving to estates that have to be probated.

A NOVEL SCHEME.

A Connecticut man has evolved a scheme to revolutionize and provide better tenement houses in cities, and it is likely to be carried into effect in New York, where there are many people interested in changing the present system of housing the poorest working class of the population. Professor C. J. Fairchild of the Hartford Theological Seminary is the originator of the plan. He has had considerable experience in the management of tenement houses in large cities, and has made a special study of the conditions obtaining in the thousands of respectable working families who are crowded into the tenements. His plan is to secure for them better accommodations for the same amount of money they now pay for miserable poor quarters.

SOURCE OF PROSPERITY.

In this country prosperity follows crop conditions, and the Brooklyn Eagle, more closely than any other single factor, not that a year of big crops is always a prosperous year, but as a rule good crops and a good export movement go hand in hand with good times. In proof of this fact, the paper presents some instructive facts. In 1914 the production of wheat and corn was very large and the value of the total exports of these cereals amounted to \$125,000,000. The average price of wheat having been 102.6 per bushel and corn 55.1. The year of 1913 and the succeeding two years were not caused by crop failures, the crops being good, but as other countries also had a good crop, the export of cereals in 1913, though it was far below the movement of 1912, and there was a still further increase in 1917, with a considerable advance in the price of wheat.

It was in this year that the business revival began. In 1918 wheat production was still greater, and the average price was greatly enhanced. A short crop in 1919, however, brought a large export demand, and the shipments of wheat abroad were 70,000,000 bushels in excess of the preceding year, the exports of other cereals being also materially increased. What last year was financially and commercially, says the Eagle, is too well known to require description. It is sufficient to recall the payment of millions of mortgages, the increased earnings of the banks and the wonderful production of the country. All of these would appear to indicate that the crop and particularly their export movements have more to do with prosperity than anything else, and that the man who produces a good crop, and who sells it at a good price, and who spends one whole day entirely as he wants

Why buy inferior and adulterated
soaps for the bath and toilet when
it is just as easy to get the best

KIRK'S JAP ROSE
made from the choicest vegetable
oils and glycerin, is an absolute
pure, reliable brand of soap.

Made by JAS. S. KIRK & CO., Chicago

WINDOW GLASS COMBINE.

Consummation of the Deal Is Practically Assured.

Pittsburg, Aug. 1.—The consummation of the window glass combination is practically assured. It has been decided to take the following action: The project will be put on the options of five plants in the West that expire today and the money probably will be paid out before tomorrow. The bulk of the options on the remaining plants do not expire before Sept. 1. All the elements of success of the project will now probably be brushed out of the mind. If the glass combine is consummated, the resulting rumors of trouble in the combine will be checked.

A charter was granted yesterday to the Glass Merchants' Wholesale Association under this combine, and company and stock certificates. The company is capitalized at \$1,000,000.

REGULATE THE LIVER

[illegible]

for said county of St. Louis, and
signed by said William, and attested
by said William, and attested by said
administrator of said Nelson Seligson,
Jesse L. Mahon, by deed of assignment,
on the 17th day of July, 1899, and duly
recorded in the recorder's office at
St. Louis, Missouri, at ten o'clock a. m., in the office of
the recorder of deeds, in Book 147, of mort-
gages, on page 121.

It is hereby declared to be due,
and is now due on said mortgage, at the
date of this notice, the sum of three hun-
dred and thirty dollars, with interest.

E. Cave, executors of
will and testament of
said Nelson Seligson, and
county commissioners of
said county of St. Louis,
County, Andrew D. Day,
assignee of the State of
Missouri, and John H. At-
torney, assignee of the
Duluth, Eastern and
Pacific Railroad Company,
assignee of the People's
Bank and John Hogue.

Notice is hereby given
that by virtue of a judgment

[illegible]

the premises described in said mortgage and so to be sold, is the tract and parcel of land lying and being in the northwest quarter of section 34, township 24 north, range 68, north of range number 121, T14N, R68N, of the state of Minnesota, known and described as follows: Lots one (1) and three (3), of sec. 34, township (34), in township number 34 north, range 68 north, of range number 121, T14N, R68N, of the state of Minnesota, according to the government survey thereof.

Dated Duluth, Minn., July 21st, 1899.

Witness my hand and seal of office, this 21st day of July, 1899.

THE SILBERSTEIN & BONDY COMPANY.

The Interest Keeps Up....

And each day seems to pave the way for the 'morrow, because the offerings are of a substantial nature and are such that command recognition from every woman who keeps in touch with Dry Goods values; foreign fabrics as well as our own superior grades made in America are included. Wash Goods, too, such as Scotch Embroidered Linen Zephyrs and Gingham, from 30c to 38c the yard; and Scotch Corded Gingham from 35c to 38c the yard, and Fine Percales and Zephyr Gingham from 15c and 12c to 9c, are included in this selling. Of course, the Dress Goods items are somewhat more important because the values include items that will be very serviceable for Fall, as these:

Colored Dress Goods.

Beautiful assortment of plaids and checks, handsome dark colorings, were \$1.25 to \$1.50, at 88c
 15 pieces colored Fancies, that sold from 25c to 35c, at 39c
 15 pieces colored Fancies, that sold from 25c to 35c, at 39c

Remnants of Fine Dress Goods.

Just keep picking through until you've found what you want. The price won't worry you a bit—depend upon that.

Black Crepons, Jacquards, Placed Mohairs and Dressing Canvas, were 50c to 60c, at 39c

In the Silk Dept.

The interest seems to increase as the sale goes; one customer tells another before, and she comes to take advantage of the golden opportunity, and this it goes.

Better Bargains than these were never sold before.

Black India Silk—27 inches wide, positively worth from \$1.00 to \$1.25, at 50c

Colored Fancy Silk—An assortment of about 20 pieces that have sold at \$1.25 to \$1.50, tomorrow sell at 1.00

A Grenadine Bargain—A dress of silk and black with colored polka dot, 22 to 24 inches wide, have sold at \$1.25 to \$1.50, now selling at 75c

Japanese Wash Silks—The balance of the 36 quality quarter the finest silk for a dress, \$1.00, or Dressing Jacket, get one before they're all gone at 25c

Black Crepons, Jacquards, Placed Mohairs and Dressing Canvas, were 50c to 60c, at 39c

New, Swell Skirting Plaids, advance Fall numbers are being shown—our own special importation and entirely exclusive.

Advance Fall importations in Covert Cloths—the correct and fashionable colorings will be shown tomorrow.

Black Dress Goods.

Choice items in Crepons, Matelasses, Mohair, Brocades and Broadcloths—\$1.25 to \$2.25, at 98c

Black Crepons, Russian Corals, Bayaderes, Grenadines and Broadcloths—\$1.25 to \$2.25, at 79c

Black Worsted Cheviots, Camel's Hair Cheviots, Wool Grenadines, Crepons, Elanines, Brocades and Piques—\$1.00, at 69c

All-wool and silk, and Silk and Wool—\$1.00 to \$1.25, at 59c

The Linen, Domestic and White Goods Selling is one of the Wonders of the Store,

And not for a day does the interest seem to lag. Of course, a Linen, Domestic and White Goods buying opportunity like this is not an every day occurrence. And when you consider that these prices rule in face of the heavy advances in all goods of this nature, the liberal buying is not to be wondered at. Hotelkeepers, Restaurantkeepers and Boarding Housekeepers will find this an exceptional opportunity of replenishing at these prices.

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas consumes as much oxygen as four adults.

CLEAN! It causes no decomposition of furnishings and decorations in homes.

SAFE! As electric bell work, no danger of suffocation.

CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

HER SON'S BLOOD.

Vidow Pays to Have Her Own Boy Hung.

Atlanta, Ga., Aug. 2.—One of the most unique and grotesque in the history of the state was brought to a close when the supreme court handed down a decision affirming the decision of the lower court, which will compel Mrs. Sarah Campbell to pay the reward which she offered for the conviction, knowingly, of her own son for the murder of his brother. It is doubtful if the case has a parallel, and the entire affair reads more like fiction than fact.

Down in Jasper county one day William C. Campbell, the eldest son of the late Mrs. Campbell, was murdered. The crime was shrouded in mystery, and the entire community was worked up to a pitch of excitement that threatened the life of the perpetrator of the deed, had he been caught immediately after it was committed. The man had been murdered, and that was about all that could be said.

The thought of her son lying out in the cemetery unavenged, and the fact that her husband was nearly blind, suggested that if a suitable reward were offered, the guilty one might be found. The woman grasped at the idea like a drowning man catching a straw.

So a paper was prepared and Mrs. Campbell signed it, guaranteeing the payment of a certain sum for the arrest and conviction of the murderer of her first-born. Scarcely had the ink dried on the paper offering the reward when her other son was arrested for the murder of his brother. The document came like a thunderbolt, and the shock early upset the reason of the widow. Then those who had arrested her son demanded the blood money. According to her own statement, her soul recoiled at the idea that she should pay to have her own son hanged.

She refused to pay the amount of the reward and the claimants carried the matter to the courts to force her to live up to the money agreed upon. The lower court found for the plaintiff. Mrs. Campbell seized her only remaining chance and appealed the case to the supreme court. That tribunal affirmed the decision of the lower court and Mrs. Campbell will have to accede to the demands of those who hold the written agreement.

IS NOT POPULAR.

esentment Against the New Imperial Loan in Jamaica.

Kingston, Jamaica, Aug. 2.—Popular sentiment against the conditions of the imperial loan is rapidly becoming an important factor in the political life of the island. The loan, which is being negotiated through the agency of the London and Lancashire Bank, has been the subject of a series of resolutions, involving a grim constitutional struggle, and with a greater need of understanding the combination than at any

BUT FEW TO RIDE

Car of the Big Consolidated Road Are Running Almost Empty.

MILITIA DEPARTING

Merchants Taking Part in the Boycott Charge Prohibitive Prices.

Cleveland, Aug. 2.—There was practically no change in the strike situation here today. President Everett of the Big Consolidated declares that his company has about all the men required, and that the service maintained on lines of the system is equal to that which was in force prior to the strike. Mr. Everett states that he is receiving applications from some of the strikers for reinstatement, and that a number of union men have already been put to work.

The strike leaders, on the other hand, insist that not a single member has occurred, and that their ranks remain unbroken.

There is no indication, so far, of any check in the boycott movement, although the officials of the Big Consolidated say there was a marked increase in the number of passengers carried down town on the city lines this morning. As a matter of fact, however, the cars, aside from those on the Duluth and Cedar avenue lines, continued to run almost empty.

The strikers sent out by the strikers are scattered everywhere along the Big Consolidated lines. They board the cars, and endeavor to learn the names of the passengers, and then they refuse to take them to their homes.

Many merchants who are taking part in the boycott have changed their tactics, and simply place a prohibitive price on their goods to boycotted persons.

The militia is being withdrawn at the rate of two or three companies each day.

Gen. J. R. McQuinn was today appointed acting judge advocate by Adj. Gen. Axline, commanding the Ohio National Guard troops on strike duty here. It is understood that the acting judge advocate will take up once again the legal phase of the strike.

Gen. Axline said today that the proprietors of stores which refused to sell goods to either soldiers or civilians could undoubtedly be punished under the law. He added that reports were constantly being received at headquarters in the city hall showing that many storekeepers throughout the city were refusing to sell their goods to the troops.

To a representative of the Associated Press, President Everett of the Big Consolidated said today that the boycott had practically failed out of their hands. "The people themselves," he said, "have taken it up and the movement will end no one can tell."

Speaking of the threatened prosecution of some of the corporations who place men on their blacklists and allow them to enter the country in order to keep them out of employment sometimes for years.

It is stated that Governor Bushnell will come to Cleveland in person shortly to investigate the situation and to decide how long the troops shall be kept here.

John Schoenholtz, a striking employee of the Big Consolidated line, is under arrest at the city hall on a charge of being a suspicious person. According to the police, he attempted to purchase a ticket to Nottingham, a suburban town, and was refused by the ticket agent.

It is stated that Governor Bushnell will come to Cleveland in person shortly to investigate the situation and to decide how long the troops shall be kept here.

John Schoenholtz, a striking employee of the Big Consolidated line, is under arrest at the city hall on a charge of being a suspicious person. According to the police, he attempted to purchase a ticket to Nottingham, a suburban town, and was refused by the ticket agent.

It is stated that Governor Bushnell will come to Cleveland in person shortly to investigate the situation and to decide how long the troops shall be kept here.

John Schoenholtz, a striking employee of the Big Consolidated line, is under arrest at the city hall on a charge of being a suspicious person. According to the police, he attempted to purchase a ticket to Nottingham, a suburban town, and was refused by the ticket agent.

FIGHTING IN CEBU

A Newspaper Man, Arrested By Officers, Makes Resistance.

Port Au Prince, Hayti, Aug. 2.—The political situation is causing anxiety. Numerous arrests have been made. Among those taken into custody are M. Duvalier, a former minister of the interior, and M. Davier, a newspaper man. Davier made strong resistance and succeeded in entering the United States legation, dragging with him the officers intended to take him into custody. The officers, however, were able to take their prisoner outside the legation doors. The United States consul, William E. Lewis, has entered and demands the release of the prisoner. Eventually the Haytian government gave way to the protest of Mr. Powell. M. Davier was set at liberty and re-entered the United States legation.

MOLINEUX ARRAIGNED.

He Pleads Not Guilty to the Charge of Murder.

New York, Aug. 2.—Roland E. Molineux was arraigned in general sessions today to plead to an indictment, accusing him of poisoning Mrs. Kate J. Adams. His counsel demurred to the indictment, Judge Blanchard overruled the objection, and Molineux pleaded not guilty. Mr. Weeks, of the defense, said that the trial would take place. District Attorney Gardner said he would not take place in August and he could not take place in September or October.

MACHINISTS GO OUT.

They Object to Employment of a Non-Union Man.

Port Huron, Mich., Aug. 2.—The machinists in the Grand Trunk shops here went on strike today. The action is the culmination of trouble which began when J. C. Gehring, formerly a Wash. man, was installed as foreman. Yesterday Gehring set a non-union man at work. The machinists notified the Grand Trunk that they would move if they would strike, but the non-union man was moved to work today.

Every branch of the International Machinists' association and the Amalgamated Association of Engineers, who have men in the employ of the Grand Trunk, are affected, and the strike will extend today to the entire system.

J. O'Connell, master mechanic of the Grand Trunk, said today that he had been summoned from New York to assist in matters. Two hundred and fifty men are out here.

MUST KEEP OFF

No Settlers Allowed on Agricultural Lands in Cass Lake Reservation.

Washington, Aug. 2.—(Special to The Herald.) The secretary of the interior has issued a proclamation warning "sooner" to keep off of the agricultural and other lands in the Cass Lake reservation, except the north half of section 15, to be sold by public sale.

Nov. 1. Capt. Mercer is directed to use the entire force at his command to enforce the proclamation.

Alfred Thompson has been appointed a fireman in the Duluth postoffice.

THE MAZEETTES.

They Examine Some Dredgers and Find Out Nothing.

New York, Aug. 2.—The taking of testimony by the Mazette committee today began with the examination of William Beards, of the W. H. Board Dredging company. Mr. Beards, who is the manager of the company, was examined by the committee.

It is stated that Governor Bushnell will come to Cleveland in person shortly to investigate the situation and to decide how long the troops shall be kept here.

John Schoenholtz, a striking employee of the Big Consolidated line, is under arrest at the city hall on a charge of being a suspicious person. According to the police, he attempted to purchase a ticket to Nottingham, a suburban town, and was refused by the ticket agent.

AMERICANS MAKE SUCCESSFUL ATTACK ON INSURGENTS' TRENCHES NEAR ELPARDO.

Insurgents Commanded By the Brothers Climace, Prominent Men.

Manilla, Aug. 2, 3:55 p. m.—Mail advices from the island of Cebu announce that a company of Americans last week attacked the Philippines' trenches, situated two kilometers from the town of Elparado. The rebels were commanded by the brothers Climace, who were prominent and wealthy persons.

FILIPINO OFFICERS

Insurgents Commanded By the Brothers Climace, Prominent Men.

Manilla, Aug. 2, 3:55 p. m.—Mail advices from the island of Cebu announce that a company of Americans last week attacked the Philippines' trenches, situated two kilometers from the town of Elparado. The rebels were commanded by the brothers Climace, who were prominent and wealthy persons.

The Charlestown shelled the enemy and the Philippines retreated. The American casualties were slight. The presence of the Climace was the only one reported to have been due to orders from Lazon.

THE RELIEF ARRIVES.

San Francisco, Aug. 2.—The U. S. Hospital ship Relief, laden with sick and disabled soldiers from the Philippines, passed through the Golden Gate at 2:30 today.

The Relief steamed up the bay and anchored at the quarantine station. No quarantine was observed, and the ship is boarded and examined by the government quarantine officers this afternoon.

She is reported to have on board over 350 invalids, representing nearly every regiment now in the field, as well as the Nebraska, Utah and Pennsylvania volunteers, who have already returned from the seat of war.

A clean bill of health being issued, the Relief proceeded to a point off the Presidio, where the government vessels McDowell and Carolina were utilized in transferring the sick and wounded to the shore.

Only two deaths during the voyage have been reported. James Kaus, private, of Company H, Wyoming, died at Yokohama on July 27, of malaria. He was brought to Manila on the Relief, and died on July 28, of the same disease.

Only two deaths during the voyage have been reported. James Kaus, private, of Company H, Wyoming, died at Yokohama on July 27, of malaria. He was brought to Manila on the Relief, and died on July 28, of the same disease.

KILLED AND WOUNDED.

Washington, Aug. 2.—Gen. Otis cables the following additional figures: July 26, Killed—Twenty-first infantry, July 26, Remedy, July 26, Company C, William M. Company K, Corporal Charles Henderson.

San Francisco, Aug. 2.—The transport Indiana has sailed for Manila, having on board 800 recruits for various regiments in the Philippines.

SHOT BY A MINER.

Fate of a Solicitor For the Couer d'Alenes Mines.

Cripple Creek, Aug. 2.—David Connell, formerly a deputy marshal at Goldfield, Colo., was shot and probably fatally wounded by an unknown man at the Florence & Cripple Creek railroad depot. He had been soliciting miners to work in the Couer d'Alenes country, and several recruits whom he had secured were with him when he was shot.

It is stated that Governor Bushnell will come to Cleveland in person shortly to investigate the situation and to decide how long the troops shall be kept here.

BY ACCLAMATION.

The Democratic Nominations in Maryland Are So Made.

Baltimore, Aug. 2.—The Democratic state convention, which was held at the Fords Opera house, in this city, today, resulted in the nomination of the following ticket:

For governor—John Walter Smith, of Worcester county.

For attorney general—Isidor Rayner, of Baltimore.

For comptroller—Joshua W. Hering, of Baltimore.

ALGER'S WELCOME HOME.

Great Preparations Are Being Made For the Event.

Detroit, Aug. 2.—A special trainload of Detroiters, members of the advance committee who will welcome home ex-Secretary Alger, left for Toledo over the Michigan Central at 1:15 this afternoon.

A committee of ladies will take the initiative in welcoming Mr. Alger. On the arrival of Alger's private "Michigan" at Toledo it will be at-

Today's Telling

VEILINGS
at 5c a yd.

A ridiculous price, but small bits of each and they must go. Some were 10c and some 12c the yard.

RIBBONS
worth 60c, 80c, 40c, 30c, 25c, 20c, 15c, 12 1/2c a yard.

Some left from the lots previously offered. Splendid for Belt Buckles and Neck Clasp.

will be mainly of necessary good things in Dry Goods considerably under-priced, and mind you, all this on goods that are choice and thoroughly reliable. The success of this Sale is probably due to this fact and also because A PRICE IN OUR ADVERTISEMENTS MEANS THAT YOU CAN EXPECT TO FIND those goods here.

No exaggerated statements to lure you to the store—no cheapened goods to make the price low. We stand back of everything we sell by replacing anything not satisfactory—or the money, if you'd rather. The sale is more interesting than ever and there is no let-up in the large daily attendance. Of course, every department offers its share of good values, but we mention new ones from day to day as reminders. Your are welcome—that you know—not alone to buy, but to look or to shop, as you might call it, and we're glad to have you honor us with your daily presence—if that be possible.

The Dress Fabrics on sale, the Wash Materials on sale, or the Linens, Domestic and White Goods on sale, will not be itemized today, but they are ready for your buying just the same.

If you don't mind a little muss and would save in purchases—five, ten or even fifteen dollars, Visit the Cloak and Suit Department.

We've sold dozens of handsome garments in the last few weeks, but there remains a goodly choice, and the price savings are worth noting. Separate skirts too—in plenty and a big slice, clipped off the price. Here are the items, judge for yourself.

Tailor-Made Suits.

\$12.50, \$15.00 and \$10.00 Ladies' Suits—the balance of this season's lines—
\$21.50, \$19.50 and \$17.50 handsome man-tailored suits in Venetian, Broad Cloth and Cheviots—styles that will be good for the coming season and it will pay you to buy now and lay away any of these fine suits. Sale price.

Every handsome man-tailored suit in the house, silk lined—that have sold for \$35.00, \$30.00 and \$27.00. Sale price.

These lots are small, but each garment is choice—Golf Caps, advance full styles, choice colors, flounce effect, regular \$9.50 quality. Sale price.

SILK WAISTS—Decided reductions on every one in the house.

SKIRTS.

Black figured wool skirts, \$2.75 quality, sale price. \$1.75
Black figured silk skirts, \$8.75 quality, sale price. \$4.75
Plain black satin skirts, \$11.50 quality, sale price. \$6.75
Handsome black all-wool Crepon Skirts, \$10 quality, sale price. \$6.75

White Pique Skirts, very best quality, warranted non-shrinkable, \$4 quality, sale price. \$2.75
Crash Skirts, excellently made, \$1.50 quality, sale price. 98c

Every Wash Suit, Piques, etc., at a Decided Reduction.

Shirt Waists too at considerable savings. In white or colors. Even the Silk Waists have been reduced considerably, notwithstanding the decided advances of silk of every description.

Have you seen the new Fall Golf Cape? Advance styles are here—but sale prices prevail, so instead of \$9.50, we've made the price \$7.50, and you'd be surprised to see how many are taking advantage of the saving and buying a few days ahead.

Fur Collarettes. Too early! Not a bit of it. The Fall Styles are here. And the best numbers, too—because of it being early. Fifty styles possibly to select from—Electric Seal, Marten, Beaver and all the other popular furs. The present price should be a big inducement, because furs are always good property, and the saving is from \$3.00 to \$15.00, according to the price of the garment purchased.

Special Orders Filled on Seal Skin and Electric Seal Coats. If you've had any difficulty in getting a proper fitting garment, this would seem a very opportune time to place your order, as the present price is much less than later, and special attention can be given your order.

DULUTH WE GUARANTEE EVERY PACKAGE OF IMPERIAL TO BE ABSOLUTELY PURE. FLOUR.

Ladies' Pocket Books . . .

At Special Prices Tomorrow.

About one hundred, at a third to a half less than regular prices to close them out. Some Sterling Tipped, some Plain. Blacks and Colors.

\$1.75 instead of \$3.00
\$1.50 instead of \$2.50
\$1.25 instead of \$1.75
98c instead of \$1.75
75c instead of \$1.50
48c instead of \$1.00
35c instead of 50c

Parasols at Half

About twenty in all to be closed out.

Children's Dresses—

Would you bother making them when you can buy them at these prices? Pretty, too. Some neatly trimmed with insertion; others plain. Lawn, Cambric and Percalé—

39c, 49c and 69c.

Worth considerably more.

Duck and Crash Jackets—50c.

Mismatched from suits of last season's and this season's selling; worth all the way from \$1.50 to \$5.00; some plain, some trimmed. Pick one out at

50c

Kid Gloves—\$1.75, \$1.50, \$1.25 and \$1.00 qualities, at 49c

Odd sizes, of course. Couldn't afford to sell regular goods at these figures; but the kid stock alone is worth double. Sizes mostly 5, 5 1/2, 5 3/4, 7 and 7 1/4.

Belt Buckles—

We're selling hundreds of them, we might say for glory and future remembrance; no profit to us. The SWELLEST BELT BUCKLES and JEWELRY NOVELTIES in town, without a doubt.

Millinery. Millinery.

Every Trimmed Hat in the Store is to be Sold, mind you. **EXACTLY HALF PRICE.**

New Hats, the Swell Things,

In Cloth and Duck, just in from New York, but at regular prices.

Silberstein & Bond
Company.

THEY WORK IT STRONG

Charles G. Voss Says Coast People Boom Klondike for Their Advantage.

GREAT DEAL OF FAKE

Reports From Some Duluth People—Left Because of a Broken Arm.

Charles G. Voss, a brother of City Treasurer Voss, has recently returned from Alaska and does not speak in very glowing terms of the prospects there. Mr. Voss is a practical miner of nearly twenty years' experience and knows whereof he speaks. After hearing him, one is inclined to regard Alaska as a fake that is being worked by the transportation companies and the people of the coast for the profit there is in it for them. There is gold there, he says, but it is mainly in scattered patches of dust too thin to pay in the long run. Furthermore, practical miners who have worked in the field have reached the conclusion that the theory that the dust is gold has been washed down from quartz lodes above will not hold. Voss has had his hands up by voluntary action. This being the case, the miner is relegated to chance entirely, as there is no settled theory to afford him a working rule, and the hunt for gold becomes a pure lottery. The stories of large amounts brought on the steamers are not to be relied on, Mr. Voss says, being exaggerated with a regularity that evinces a purpose to mislead. As an instance, Mr. Voss gives the case of a man who brought a trunk full of gold on the voyage from St. Michaels, who had \$500 in gold, and a man who brought \$100,000 in gold, and the papers reported to have been brought by the others were exaggerated in like proportion.

Mr. Voss left here a year ago last March for the Stewart river. He spent the summer there prospecting with Foster Hallett, of Duluth, and John Holmer, formerly of Duluth, now of Seattle. They found "color" all the way up the Stewart, but in no paying quantities. Last fall they went up the Stewart, about ten miles above Dawson, and worked a claim on shares. Last February Mr. Voss broke his arm. Voss do not have suffered amputations or fractures usually have to come out. The flesh on the arm in Mr. Voss' arm began to turn black in the spring and he decided to come out rather than take any chances. He says that the party had a fair thing on Eldorado creek, making a little over \$100,000, but he sold his interest in the stockpile and does not think that he will ever see the Eldorado creek in the gold location there, he says, and there are but about forty paying claims on it.

Mr. Voss stopped at the Cape Nome country, near Berling sea, about which there has been so much talk recently. He says that there is not been a hole sunk there, and that it would be impossible to sink one without a steam derrick as there is not a stick of timber in the country for sawing. There is eighteen inches of moss on the surface and the ground never thaws a particle.

Mr. Voss saw a steamer in front of a place with the announcement "100,000 of Cape Nome gold on exhibition." He went to see the gold, and he saw a friend of his who is a mining expert went in to see the gold. There was about \$8000 of it in a pan. The expert examining it a minute, said to the man in charge, "You have been using quicksilver." The latter denied it, and the expert followed it up by telling him that he had Eldorado Hunter creek gold in the pan and also gold from some other creeks. In answer to the denials of the man with the exhibit, the expert pulled out a bag of gold and remarked, "Weigh this—I'll put up the pile against an equal weight of what I saw in the pan." The man with the exhibit promptly climbed down, as it were, and was gone. Mr. Voss says that from what Mr. Shannon told him he has a hunch that Mr. Shannon had walked into Dawson to get his mail. He looked well, although he had frozen one cheek, his nose and one finger on the trail. Tom Hayden is working by the day as a miner. He was also looking well. Mr. Voss says, but he is a good deal thinner than he used to be. Paul Flynn has a contract getting out logs for a mining company at Dawson. He rafted them about 125 miles down the river and gets \$4 per 1000 for it. Everybody who can be getting out of Dawson, Mr. Voss says. Two years ago there was a big boom in the little shacks for storing goods; now plenty of room is to be had for nothing.

Mr. Voss says that the agents and employees of the transportation companies are apparently under orders to keep up the deception of gold for every body for the picking up in Alaska. On the steamer Oregon coming down from St. Michaels, the steamer St. Paul, bound up, was spoken, and from the latter came the inquiry as to the prospects. "Plenty of gold up there," sang the captain in reply. He looked as if he were rehearsing a disastrous part and the crew looked at each other and winked and made satirical remarks.

THE WEATHER IN JULY.

Average Temperature Was One Degree Less Than Normal.

The report of Forecaster Richardson of the weather bureau for the month of July shows the mean temperature for the month to have been 65 degrees. This is one degree less than the average for the month during the past twenty-nine years. The highest point reached by the mercury during the month was 85 degrees on July 6, and the lowest was 49 degrees on July 4. The winds were mostly from the northeast and the highest velocity was 34 miles an hour on July 25 from the northwest. There was not so very much rain, the total precipitation being 42.2 inches, which is considerably below the average. The average during the past twenty-nine years has been 52 inches. There were only 10 cloudy days. 15 partly cloudy and 6 cloudy.

Closing Out Sale

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas contains as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

One Cuban General's Opinion of
Other Cuban Generals.

Havana, Aug. 3.—A Cuban general, in a letter published in the independence today, says some commanders of the Cuban army have taken advantage of the \$3,000,000 gratuity to get money from the soldiers for granting them the certificate necessary to enable them to collect their quota. He gives three cases of men who were charged money by him, a colored man in a Cuban regiment. In another instance it appears a man could not get his certificate owing to the lack of money to pay for it. The writer says:
"Every day proves that the Americans are more and more right. Many

years must pass before the Cubans learn how to handle money without letting it slide to their fingers."
The general then asks, in view of the facts adduced, what would have happened if the Americans had entrusted the distribution of the gratuity to Cuban commissioners.
Senor Casanova, the owner and director of the newspaper Guacimaya, has been arrested under the decree recently issued by Maj. Gen. Lindero, governor of the department of Havana. Senor Casanova has repudiated his responsibility in connection with any objectionable articles that appeared in the paper, seeking to throw the blame for their publication on the jail editor, because he takes the responsibility for whatever appears in the paper. The jail editor has not yet been arrested and in the meantime Senor Casanova is detained in custody.

TERRIBLE DISASTER

The Storm of Tuesday In
Florida Worse Than First
Supposed.

STEAMER IS ASHORE

Large Warehouse Containing
\$100,000 Worth of Resin
Is Destroyed.

Pensacola, Fla., Aug. 3.—Reports from Carrabelle indicate that Tuesday's storm was more disastrous than at first supposed. Only meager reports have been received, but it is known that the hurricane docks of the Gulf Naval Stores company have been destroyed. A large warehouse of that company, containing \$100,000 worth of resin, was swept away.
The steamer Capitol, also the property of the Naval Stores company, was blown ashore.
About two-thirds of the town proper was destroyed. A steamer will leave here this evening to ascertain the true state of things.

A report has reached here by a party of people who made the trip during the storm, that the steamer Capitol, which was blown ashore, was lost in Tuesday's storm. The steamer was in the service of the Carrabelle, Tallahassee and Gulf route, and was carrying a cargo of resin. The steamer was blown ashore near Carrabelle, and was completely wrecked. The cargo of resin was also destroyed.

Results of the Florida Storm Not Yet Known.

Tallahassee, Fla., Aug. 3.—Up to noon today no direct information had been received from the coast towns stricken by Tuesday's storm. There is no communication by wire, and the only hope for news as to the extent of the damage is by mail. Officials of the Carrabelle, Tallahassee and Gulf route, which left here this morning, say that a train will get in today from the coast. They hope a train will reach Tallahassee by 4 o'clock this afternoon. A cargo of men have been working steadily on the railroad, and the men who were on the train will be able to give some idea of the damage. Reports of loss of life continue to be heard, but there is no confirmation. It is said that the loss of life will be heavy. The men who were on the train will be able to give some idea of the damage. Reports of loss of life continue to be heard, but there is no confirmation. It is said that the loss of life will be heavy. The men who were on the train will be able to give some idea of the damage.

POWDER MILL EXPLOSION.
Portion of the Plant Near Marquette Is Destroyed.

Marquette, Mich., Aug. 3.—The press mill of the black powder works of the Lake Superior Powder plant, three miles from town, blew up at noon yesterday. Andrew Johnson, who was working in the building, was killed, and perhaps fatally injured. He was removed to St. Luke's hospital. The building was all small and far removed from one another, so the press mill building was not a great loss. The property loss is light. No theory has been advanced for the explosion, which occurred at the powder mill. The men working in or about the building are at the time.

THE SHAMROCK SAILS.
Meets With Another Accident Shortly After Her Departure.

Glascow, Aug. 3.—The challenger Shamrock sailed from Fairlie this morning, accompanied by Sir Thomas Lipton's steam yacht Erin, gaily decorated with flags.
As the two yachts proceeded down the river, whose banks were thronged with spectators, they were greeted with enthusiastic cheers mingled with the song, "Rule Britannia."
The craft in the vicinity of Fairlie displayed flags in honor of the challenger. The sound of the whistles and sirens blowing in honor of the Shamrock was deafening.
As already cabled, the Shamrock will take a southerly course. Capt. Hogarth expects to reach New York within twenty-eight days, as he does not intend to push the yacht to any extent. She is insured at Lloyd's for \$200,000 (\$200,000) at 5 per cent.
It was noted as a good omen that the last racing yacht which sailed for America from Fairlie was the unbeaten Minerva, skippered by "Charlie" Barr, now skipper of the Columbia.
The Shamrock's racing sails will be taken to New York by the Anchor line steamer City of Rome. Capt. Hogarth, just before he started, said he considered the Shamrock to be a perfect racing machine.
Fairlie, Aug. 3.—The Shamrock, after a short stay here, had a slight mishap to her bowsprit and had to return here, thus delaying her departure for some time.

MARK HANNA'S O. K.
Does Not Go Very Far With Commissioner Lantry.

New York, Aug. 3.—Charles Commissioner Lantry testified today that he had given contracts to Horgan & Sherry because he believed them to be a good firm. Mr. Lantry said he did not know Jules Schneider, who was accused yesterday of taking \$200 to obtain a place on the police force for Frederick Hall. Yesterday Hall testified that Schneider was a friend of Lantry's. The witness objected to Withers & Dickson, a firm of architects, because Senator Hanna had written a letter recommending the firm company they represented.
Howard P. Ohio, an alderman, who was elected as a joint candidate of the Citizens' Union and Henry George party, said he believed there should be a municipal council of some sort, but he did not believe in a double chamber. He thought the municipal assembly had been criticized unjustly in some respects, especially in connection with the proposed bond issue held up by the assembly.

letter recommending the firm company they represented.
Howard P. Ohio, an alderman, who was elected as a joint candidate of the Citizens' Union and Henry George party, said he believed there should be a municipal council of some sort, but he did not believe in a double chamber. He thought the municipal assembly had been criticized unjustly in some respects, especially in connection with the proposed bond issue held up by the assembly.

THE SAN DOMINGO ROW.
Report From Kingston That Assassination Was Premeditated.

Kingston, Jamaica, Aug. 3.—Owing to the efforts of the government of San Domingo to suppress news about the recent assassination of President Heurieux, the report of the assassination of Heurieux and the reported revolution in San Domingo, the facts in the case are difficult to obtain. But a dispatch received by a messenger, who has passed through Hayti, indicates that the assassination of President Heurieux was not on the program of the revolutionists being to capture Moca. The Dominican government at the first blow, the insurgents not possessing the means of prosecuting a protracted conflict.

The premature departure of President Heurieux from the island, it is believed, was a result of the revolutionists, who were an enthusiastic, who was watching the president's movements, committed the act. A subsequent attack on Moca being repulsed, the insurgents withdrew to the fastnesses between Moca and Port-au-Prince, hoping to secure sufficient accessions of men and arms to continue the struggle. The government is now endeavoring to prosecute the movement in spite of its initial failure.
Commenting on a London telegram relative to possible American intervention in San Domingo, the Cleaner today says it anticipates the failure of an attempt to add the island of Hayti to the colonial domain, and thence the power to "curb America's ambition."

NON-UNION MEN QUIT.
Claim the Big Consolidated Has Violated Its Agreement.

Cleveland, Aug. 3.—At the strikers' headquarters today it was announced that city of miners on the Erie and Southern railroads on the Wilson, Central and Southern avenue lines had quit work, because the big consolidated has violated its agreement with them. The men quit their work on Monday, and the big consolidated has not yet made any attempt to make good its promise. The men quit their work on Monday, and the big consolidated has not yet made any attempt to make good its promise.

SLOAN ARRESTED.
Claims He Was Exonerated Before Leaving Cuba.

New York, Aug. 3.—Stan L. Sloan, of Beaver, Pa., was arrested at quarantine today for alleged complicity in a robbery at Havana. Sloan said he was a clerk at Gen. Merritt's headquarters, and that he was not involved in the robbery. He claimed that he was exonerated before leaving Cuba.

HE HAS SEEN IT.
Broderick Talks About a Bureau of Navigation Circular.

London, Aug. 3.—The parliamentary secretary of the foreign office, replying in the house of commons today to Walter Lloyd, Liberal member for Oldham, said that the government had been called to circular No. 17, dated February 1, 1899, by which the government had agreed to a convention with the United States for the purpose of establishing a bureau of navigation. The convention was signed on March 1, 1899, and was intended to facilitate the movement of ships between the two countries.

A TYPHOID APPROACHES.
Port of Callao, Peru, Aug. 3.—The port of Callao, Peru, is now threatened by a typhoid epidemic. The disease has been reported to have been introduced by a ship from the Philippines.

NO NEW CASES.
Newport News, Va., Aug. 3.—The situation at the Soldiers' home in Newport News, Va., is practically unchanged. Governor Woodhull reported "no new cases; no new deaths" this morning. One of the quarantine suspect cases in Phoebus has developed the fever.

SECRET CONFERENCE.
Managers of Competing Western Roads Get Together.

Portland, Ore., Aug. 3.—C. S. Mollen, Harriman, chairman of the board of directors of the Union Pacific, and A. L. Mohler, president of the Oregon Railway and Navigation company, held a conference in this city. The meeting was secret. After it was over a special train was made up and left last evening for the Oregon Railway and Navigation line for Lewiston. It is stated that the object of the trip is to inspect the situation in the Clearwater country, where the two roads are struggling for supremacy.

CLUNG TO HER MOTHER.
The Child of Mrs. Perot Avoided Her Grandfather.

London, Aug. 3.—Mrs. William Y. Perot, of Baltimore, Md., who was arrested at Liverpool on an extradition warrant July 27, after reaching that port from Canada, charged with the abduction of her daughter Gladys, and who was brought here and remanded to the same day on £100 bail with two sureties, appeared for examination this morning in the Bow Street police court. She was again remanded on the same bail and with the same sureties, Sir Owen-Smith and N. Hood.
Mrs. Perot looked remarkably well and entered the court holding the hand of her daughter, Gladys, who was accompanied by her mother. There was some excitement in the court a few minutes later. There was some excitement in the court a few minutes later. There was some excitement in the court a few minutes later.

THE MAN LOCATED

Veteran Who Brought Yellow
Fever to the Soldiers' Home.

HE HAD A MILD CASE

Came From Santiago and Developed Chills and Fever Soon After.

Washington, Aug. 3.—The marine hospital officials at Hampton have succeeded in tracing and locating the former inmate of the soldiers' home who is believed to have brought yellow fever to that place. The man is William Thomas. He arrived at the home on a transport from Santiago, where he had been visiting between July 2 and 5 last.

He was admitted to the home as a veteran, and shortly after developed chills and fever. In the light of subsequent events the experts believe there is little doubt that he was affected with the disease of yellow fever, although it was not diagnosed as such at the time. When well enough to travel he left the home, and his luggage was sent to Columbus City, Wash., where he now is.

Surgeon General Wyman regards it as fortunate that Thomas went to such a high latitude, as it greatly lessens any danger of infection.
Surgeon General Wyman had a call this morning from Col. M. J. Smith, inspector general of the Hampton home. He was accompanied by Col. Martin McLaughlin. Col. Smith presented a letter from the board of management of the home, authorizing Col. Smith to act for the board in co-operating with the surgeon general in every possible way. Col. Smith and Gen. McLaughlin, after talking over the situation, will manage the collection and transmission of supplies to the home during the continuance of the quarantine.

After a change was made today in the destination of the troops at Fort Monroe, Gen. Merritt telegraphed the war department that he had received the earnest recommendation of Surgeon General Wyman, he would direct that the troops be sent to Fort Monroe in Long Island sound.

The quartermaster's department is expediting considerable difficulty making arrangements for the transportation of the troops. It is quite likely that the transport McLaughlin, now at New York, will be sent to Fort Monroe to take the troops away.

Surgeon General Wyman received a dispatch from Surgeon Victor of the Hampton home today saying:
"No cases and no deaths. Von Eschdorf arrived last night. If epidemic disease limited one surgeon sufficient." It is quite likely that the transport McLaughlin, now at New York, will be sent to Fort Monroe to take the troops away.

Acting General Superintendent of the railway mail service has issued instructions for the transportation of all mails from Hampton, Soldiers' home, Phoebus, Fortress Monroe and Rip Rap.

The Virginia board of health has notified the despatch and Ohio railroad not to stop its trains anywhere between Williamsburg and Newport News.

SECURED MANY SPEEDS.
Washington, Aug. 3.—Valter T. Swingle, special agent of the agricultural department, has returned from an eighteen months' tour of the countries bordering on the Mediterranean sea, made in the interest of the department. During this time Mr. Swingle visited France, Spain, Greece, Italy and Turkey, penetrating the desert of Sahara. He obtained and forwarded to the department a large variety of seeds and plants, and also made careful notes upon the method of cultivation and harvesting.

ONE FROM YELLOW FEVER.
Washington, Aug. 3.—Gen. Brooke reports the death at Santiago, on July 29, of John F. Felt, civilian of yellow fever, and Private Jacob Hain. Company G, Eighth cavalry, on Aug. 1, of typhoid at Puerto Principe. The death of Fred Timons, reported on July 27, should have read Simons.

SOMEWHAT DIFFERENT.
St. Petersburg, Aug. 3.—An English report published by the Daily Mail of London, July 21, from this city, that Lieut. Desmarchais, late cavalry lieutenant, committed suicide, after being slightly unhurt for allowing the dispatch to go out riding alone, shows the lieutenant has been appointed an aide-de-camp to the czar.

MERCHANTS' BANKRUPT.
London, Aug. 3.—L. H. McGowan & Co., West India merchants, who also have an establishment at Demerara, have been declared bankrupt. Their liabilities are £25,000.

"I don't wish to speak to you."
"But, my dear," he replied, "I have a letter from your father and he sends his love."
The child wept, but did not answer, and Mr. Perot seemed much hurt.
Mr. Crane, representing the United States embassy, said that extradition papers, marked "urgent" and "pressing," were handed this morning to officials of the British foreign office and were now on their way to the home office. Some days must necessarily elapse, he added, before copies of the documents could be placed in the magistrate's hands. Therefore, Mr. Crane asked that the prisoner be remanded. Counsel for Mrs. Perot acquiesced.

A MATTER OF FORM.
Man Arrested in American Legation Will Be Given Up.

Washington, Aug. 3.—Acting Secretary of State Allen has received a telegram from Minister Powell at Port au Prince, Hayti, confirming the newspaper reports of the violation of his legation by police officers, who were making an arrest. The minister added that the person who was arrested (De Viller) is a citizen of Hayti, and he seeks to know what disposition shall be made of him upon his return to the legation. The department is now giving this matter consideration, and it will probably direct the minister to surrender the man to the authorities. If it shall appear that the proceedings are regular, and that he will be given a fair trial, if the Haitian government expresses regret at the invasion of the legation the state department will be satisfied.

RYDER ASPIRES.

State Senator Who Is Ambitious to Succeed Eddy in Congress.

From The Herald
Washington Bureau.

Washington, Aug. 3.—(Special to The Herald).—The information comes from the Seventh Minnesota district to Washington that State Senator J. J. Ryder of East Grand Forks will seek to be the candidate for congress on the Republican ticket if Frank M. Eddy, the present member from that district, goes chasing after the Republican gubernatorial nomination next year. J. J. Ryder, it will be recalled, was formerly a newspaper man in St. Paul, and is now the editor of a prosperous weekly newspaper at East Grand Forks. He would make a good campaign, being a first-class man on the stump. Eddy, it is said, will be compelled to announce several months in advance just what he will seek. This is but fair to other aspiring politicians in the Seventh district.

Mr. Jackson, the secretary of the American embassy at Berlin, has furnished the state department with the following:
"In the unofficial part of last night's Nachschneider there is published a notice to the effect that the federal council at the instance of the Miller's union and other organizations of similar character, and by the redaction, has agreed upon new regulations, which will go into force Jan. 1, 1899, changing the provisions in regard to the certificates issued by customs officials upon the exportation of rye and wheat flour. Hereafter the flour is to be graded, and the exporter is to be entitled to import, free of duty, from 100 to 150,000 per cent of the quantity of rye, or from 100 to 150 per cent of the quantity of wheat, in accordance with the quality of the most exported. The official text of these regulations has not yet been made public."

Consul Martin, writing from Chinkiang, sends the following notice from the commissioner of customs of that port: The commissioner of customs gives notice that, by order of the governor general at the two Kiang provinces, the export of grain from this port is temporarily prohibited, beginning with the date of this notice.

An increase of pension has been granted to Charles Corey, of Monticello, from \$8 to \$12.

The salary of inspector of vessels at Duluth and Milwaukee has been increased from \$1800 to \$2000. This increase was authorized by the act of March, 1895, which provides that salaries of inspectors of steam vessels shall be regulated in proportion to the number of vessels inspected in each district each year as follows: In districts inspecting 100 steamers and less, salary of \$1200 per year each; over 100 and less than 150 steamers, \$1500; 150 and less than 200 steamers, \$1800; 200 and less than 300, \$2000; 300 and less than 500, \$2500; 500 and upwards, \$3500.

Assistant Secretary Spaulding today advised the collector of customs at Duluth that he has approved the band common carrier of the Chicago, St. Paul, Minneapolis & Omaha railroad, in lieu of the bond approved Sept. 21, 1898.

SECURED MANY SPEEDS.
Washington, Aug. 3.—Valter T. Swingle, special agent of the agricultural department, has returned from an eighteen months' tour of the countries bordering on the Mediterranean sea, made in the interest of the department. During this time Mr. Swingle visited France, Spain, Greece, Italy and Turkey, penetrating the desert of Sahara. He obtained and forwarded to the department a large variety of seeds and plants, and also made careful notes upon the method of cultivation and harvesting.

DULUTH, MINN.

Interstate and Suburban Cars pass our doors every 10 minutes.

THE BUSY STORE ON THE BUSY CORNER.

Store open tomorrow night until 11 o'clock.

Stop and Think it Over!

And you'll come to the same conclusion that others have arrived at—MONEY SAVED IS TWICE EARNED. It's an old saying, but it comes pretty close to a fellow who knows what it is to earn a dollar. Our experience of a life's study in the proper attire for men has been successful in following out the point of dressing a man like made to order. The confidence in ourselves is due to the fact that this announcement shows on the face of it the evidence plain and simple for every man—tomorrow—who stops to think it over. Burrows' clothing store has become a by-word of economy in every home circle in this city. We've made it so.

Men's Suits...

You can dress at moderate cost when you buy your clothes at the GREAT EASTERN.

Men's \$18, \$20 and \$22 Suits at \$15.00—These suits consists of the finest imported Worsteds, Serges, Homespuns and Cassimeres, scores of patterns to select from. Your choice tomorrow for only

M. S. BURROWS

THE RACES TOMORROW

The Interest In the Superior-Duluth Regatta Is Running High.

THE MEN ARE READY

Prepared to Put Up Some Hot Races—Yacht Race Possible.

The Duluth and Superior boat club crews, selected to contest for the inter-lake supremacy on the Ojibwa beach course tomorrow afternoon, have added the finishing stroke to their training, and are resting on their oars awaiting tomorrow's struggle, each confident of winning with a good stretch of water to spare. Herring accidents, it promises to be a great race. The enthusiasm of the backers of both crews, and the pride taken in home talent, has worked interest in the event up to an acute stage. Only one thing is certain about the race, and that is that the pride of one of the two towns is going to come to grief. The enthusiasts have been casting a weather eye over the lake region today, and can see nothing from this source that would mar the success of the occasion. At the Duluth regatta at noon today Postmaster Richardson said that tomorrow would be very much like today, with probably light wind, west-erly to northerly—probably not enough to make the race choppy. The day will be generally fair, and the boat club men say they would ask for nothing better. A little breeze from the west, east a little breeze from the east, would make the race of the two clubs very carefully come over today and put in good condition. After several conferences and several refusals the Superior club finally consented to Duluth's request that the race be sailed on the Ojibwa beach course, instead of over at Old Superior. The course will be a mile and a quarter long, and seem pretty evenly matched. A government signal east to the Ojibwa beach pier, where hundreds will in all probability witness the remarkable finish. The starting gun for the first race will be fired at 1 o'clock sharp. The Duluth club, judge for Duluth, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior.

The first race will be a single scull event, with E. J. Carr wearing the Duluth Boat club colors, and J. H. Tolbert, the colors of the club from across the bay, and seem pretty evenly matched. The Superior club, judge for Superior, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior. The second race will be the big event of the afternoon. It will be a struggle of 4-oared heavyweights, and the Duluth club of the eight is reported in great form, and seem pretty evenly matched. The Superior club, judge for Superior, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior. The third race will be a double scull event with Duluth represented by C. C. Calhoun and F. W. Helmick, and Superior by E. H. DeGroat and L. B. Ferguson. This race promises to be most interesting to the first two.

After the rowing events, there will probably be a yacht race, open to all over a triangular course of a mile on the Ojibwa beach. The Duluth club, judge for Duluth, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior. The fourth race will be a double scull event with Duluth represented by C. C. Calhoun and F. W. Helmick, and Superior by E. H. DeGroat and L. B. Ferguson. This race promises to be most interesting to the first two.

After the rowing events, there will probably be a yacht race, open to all over a triangular course of a mile on the Ojibwa beach. The Duluth club, judge for Duluth, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior. The fifth race will be a double scull event with Duluth represented by C. C. Calhoun and F. W. Helmick, and Superior by E. H. DeGroat and L. B. Ferguson. This race promises to be most interesting to the first two.

After the rowing events, there will probably be a yacht race, open to all over a triangular course of a mile on the Ojibwa beach. The Duluth club, judge for Duluth, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior. The sixth race will be a double scull event with Duluth represented by C. C. Calhoun and F. W. Helmick, and Superior by E. H. DeGroat and L. B. Ferguson. This race promises to be most interesting to the first two.

After the rowing events, there will probably be a yacht race, open to all over a triangular course of a mile on the Ojibwa beach. The Duluth club, judge for Duluth, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior. The seventh race will be a double scull event with Duluth represented by C. C. Calhoun and F. W. Helmick, and Superior by E. H. DeGroat and L. B. Ferguson. This race promises to be most interesting to the first two.

After the rowing events, there will probably be a yacht race, open to all over a triangular course of a mile on the Ojibwa beach. The Duluth club, judge for Duluth, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior. The eighth race will be a double scull event with Duluth represented by C. C. Calhoun and F. W. Helmick, and Superior by E. H. DeGroat and L. B. Ferguson. This race promises to be most interesting to the first two.

After the rowing events, there will probably be a yacht race, open to all over a triangular course of a mile on the Ojibwa beach. The Duluth club, judge for Duluth, and probably Robert Kelly, Sr., of the Superior Boat club, to look after the interests of Superior. The ninth race will be a double scull event with Duluth represented by C. C. Calhoun and F. W. Helmick, and Superior by E. H. DeGroat and L. B. Ferguson. This race promises to be most interesting to the first two.

ELY SHOTS COMING.
Will Be Down For the Superior Shoot on Sunday.

The village of Ely, or rather a big percentage of the population of that thriving range town, will land in Duluth on a special train next Sunday morning. Arrangements have been made and a special train chartered by the people of Ely to bring down a big delegation to attend the gun club shoot for the championship of the head of the lakes, to be shot off at the grounds of the Superior Gun club Sunday afternoon.

Louis Eisenbach, of Ely, won the diamond medal depicting the head of the lakes championship at the Ely met last Sunday. He and his fellow-citizens and admirers are coming down to defend the medal and if possible carry it back to Ely with them. Duluth and Superior shots have concluded the one week in long enough for Ely to hold the championship, and some very close and expert work may be expected.

The new grain board of appeals consisting of Fred W. Egan, of this city, J. H. Stone, of Granite Falls, Minn., H. J. Dorge, of Otter Tail county, has taken offices at 59 Board of Trade building and is now doing business.

100 pairs Ladies' small size black shoes, out of style but good wearing **98c**

TO OPEN THE MARKET.
Tomorrow is the Day—Stalls Will Be Rented.

The city market will be opened tomorrow morning for the season. Saturdays and Wednesdays will be the market days, as last year, but the market will, however, be open every day for any one who desires to take produce there. On regular market days, the market will be open at 6 o'clock in the morning and will be kept open at night as long as necessary.

It has been decided to rent reserved stalls this year at a charge of \$2 per month. Last year there was a good deal of trouble on account of overcrowding, and the plan of reserving space on payment of a fee has been adopted to do away with this. This fee will not be obligatory and those who do not care to reserve space may take their chances on the space unserved, as last year.

THE DREDGING IN JULY.
Enormous Amount of Material Taken Out of the Channels.

During the month of July the contractors who are working on the continuous contract for dredging in the harbor at the head of the lakes removed a total of 25,108 cubic yards. With a single exception this record has never been equalled in any month. This exception was in the month of October last year, when 25,461 yards were removed.

Few people who read the fact that this amount of earth was removed have any conception of the huge amount that it really is. If dumped in Superior street it would fill a distance of 6000 feet, or about fourteen blocks to a depth of forty feet, and this is just about one-sixth of the amount that is to be taken out during the entire season.

Best ice cream in the city. Mrs. Ruf. 109 West Fourth Street. Telephone 401.

Special Sunday Trains
TO SPIRIT LAKE AND FOND DU LAC.

Via St. Paul & Duluth railroad, leave Union depot at 10 a. m. and 2 p. m., returning 11:20 a. m. and 7:30 p. m. Delightful resort to spend Sunday's outing.

HAVE YOU Sore Throat, Pimples, Cap-sules, Ulcers in Mouth, Hair-Falling? Write **COOK REMEDY CO., 1548 Madison Temple, Chicago, Ill.** for proofs of cure. Capital, \$500,000. Worst Cases cured 15 to 35 days; 100-page book free.

STEAM HEAT. ELECTRIC LIGHTS. MODERN CONVENIENCES.
Where in Duluth stay at **THE ESTHER HOTEL,** C. L. THOMAS, Prop.

Sample rooms in connection. The Finest. Cor. Sixth and Scott Sts. Hotel in the City. CALUMET, MICH.

THE WORK OF BANKS

Clearings Usually Light In July Show Large Increase This Year.

ONLY TWO SLUMPS

But Two Cities In the Entire Country Return Decreases.

New York, Aug. 4.—(Bridgman's report) says: July bank clearings are usually of relatively small volume, reflecting, as they do, midsummer quietness in speculation and business. It is no surprise, therefore, to find that the aggregate of bank clearings for that month is smaller than in any preceding month this year, with the exception of February. When comparisons are made with preceding months of July, however, it is found that the volume of bank clearings exceeds that of any corresponding month. An especially favorable showing is made by the country as a whole, with July, 1898, a month of large business and of unprecedented midsummer clearings. In every instance, except seventy-eight cities over 1888 prove to be heavier than were shown in June, and when the additional fact is remembered that only two cities of the United States showed a decrease in July, 1899, over July, 1898, some idea may be had of the immense expansion in current clearings which has occurred. This gratifying unanimity in the matter of gains over a year ago is, in fact, a most striking feature of the July returns, and it is doubtful if in this respect at least the record made in July by the individual cities has ever been equalled.

NO CLUE YET.

Frank Millman, Who Has a Brother Here, Killed By Tramps.

Minneapolis, Aug. 4.—Yesterday's discovery that Frank Millman's death near Waziyata was due to a revolver shot through the head has not cleared up the mystery. The police are at a loss to find a clue to the mystery. The police are at a loss to find a clue to the mystery. The police are at a loss to find a clue to the mystery.

A CUT IN WAGES.

The Brooklyn L. Engineers Are Now Called Motormen.

New York, Aug. 4.—The elected cut in wages of the Brooklyn "L" engineers has just gone into effect. The men are now called "motormen," and receive \$2.50 a day instead of \$3.25. The surface motormen are to receive \$2 a day, and the bridge motormen \$2.25.

A LARGER LOCK.

All Records Broken at Sault Canal During July.

Sault Ste. Marie, Mich., Aug. 4.—(Cable) Charles Raymond and George V. Wilson of the deep waterways commission arrived here last night on the Northland from Duluth. They will be here three days to inspect lock approaches and canal locks. They are expected to recommend the building of a larger lock, which will come into operation in 1905.

EXPORTS OF IRON.

There Was a Great Falling Off During June.

Pittsburg, Aug. 4.—The falling off of exports of iron and steel for June, 1899, forms a remarkable chapter in our commercial history, says the American Manufacturer and Iron World. The sole reason assigned is that the demand was not so great, and material could not be spared for foreign shipment. Many good orders have been turned down by manufacturers for export, but a large percentage of orders for future delivery will be taken early.

Mrs. Yale's

HAIR TONIC

Ladies and Gentlemen: It affords me great pleasure to call the attention of the public to the Excelsior Hair Tonic, which is the first and only remedy known to chemistry which positively turns gray hair back to its original color without harm. It has gone on record that

MME. VALE

ndful woman chemist—has made this
st valuable of all chemical discoveries.
ne Yale personally endorses its action
and gives the public her solemn guaran-
tee that it has been tested in every con-
viction of safety, and has proved itself to be
the only Hair Restorer. It stops the fall-
ing out immediately and creates a luxuriant
growth. Contains no injurious ingredient.
Physicians and chemists invited to an-
alyze it. It is not sticky or greasy—on the
contrary, it makes the hair soft, youth-
ful and fluffy.
Ladies and gentlemen with hair a little
thinned or graying, entirely gray and with

"I took it off. It's a fine piece of work, isn't it?"

"I should think that the family or one of Gen. Grant's friends would like to possess it," said the Times man. "Wouldn't you think so?"

Well, if they want it they can come and get it," was the indifferent reply. "They'll probably hear about it, as it is to attract a good deal of notice."

Then the old bookseller rushed out and the new ones came in. Boys who stood in the doorway, gazing with open mouths at the memorial to Gen. Grant amid such congruous surroundings.

CHINESE JUSTICE.

Li Hung Chang numberless stories told in Chinese society. Now and then one reaches this country through cousins in China.

One occasion, says the Literary

er, when the premier was having a fight with some of the more conservative members of the Tsung-li-yamen, he received a present, a magnificent cake, which he had reason to expect contained poison. He put the cake aside and put all his powerful machinery to work to find out who was at the bottom of the plot. The investigation was partially successful, the crime was traced to three men, of whom one, in the east, was absolutely innocent. The other two arrested and brought to his attention. When they arrived were referred into his presence and were treated in his courtliest manner. The

was produced with the remark that
ness forbade his tasting it until
these generous guests had an oppor-
tunity to enjoy its excellencies.
out the cake and one of his servants
led it to the unwilling guests. Each
a piece and ate, or pretended to eat.
One crumbled the pieces and let
fall upon the floor, but the other
ate calmly, without manifesting
any sign of emotion. Ten minutes
much began to show symptoms of
ring. Li smiled benignantly and
to the man who had not eaten:
our wisdom is so great that I am
welled to preserve your head as a

made a man of the genus. The man was not promptly pitied. To the other two, the pre- remarked: "The cake that you are eating is not the one you sent, but one which I had my cook imitate. The poison which you are suffering exists only in your imagination. I know of no way to cure your present pain except by letting you share the same imitate cake." The man who had just left the room, and who they were led away the statesman to his retinue: "It is a pity that a man who can eat a deadly corrosive with an unmoved countenance should so misapprehend the talent where-
